### FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation.

#### **Background**

- 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
- 28 Texas Administrative Code §134.403 sets out the reimbursement guidelines for outpatient hospital services.
- The insurance carrier reduced payment for the disputed services with the following claim adjustment codes:
  - 97 – Payment adjusted because the benefit for this service is included in the payment/allowance for another service/procedure that has already been adjudicated
  - 802 – Charge for this procedure exceeds the OPSS schedule allowance
  - P12 – Workers' compensation jurisdictional fee schedule adjustment

- 4915 – The charge for the services represented by the revenue code are included/bundled into the total facility payment and do not warrant a separate payment or the payment status indicator determined the service is packaged or excluded from payment

### Issues

1. What is the applicable rule for determining reimbursement for the disputed services?
2. Is the requestor entitled to additional reimbursement?

### Findings

1. The requestor is seeking additional reimbursement in the amount of \$2,364.74 for outpatient hospital services rendered on October 8, 2018. The insurance carrier reduced disputed services based on the workers compensation/OPPS fee schedule and the status indicator of the services in dispute.

28 Texas Administrative Code §134.403 (d) states in pertinent part,

For coding, billing, reporting, and reimbursement of health care covered in this section, Texas workers' compensation system participants shall apply Medicare payment policies in effect on the date a service is provided

The Medicare payment policy applicable to the services in dispute is found at [www.cms.gov](http://www.cms.gov), Claims processing Manual, Chapter 4, Section 10.1.1 - Payment Status Indicators

*An OPPS payment status indicator is assigned to every HCPCS code. The status indicator identifies whether the service described by the HCPCS code is paid under the OPPS and if so, whether payment is made separately or packaged. The status indicator may also provide additional information about how the code is paid under the OPPS or under another payment system or fee schedule.*

28 TAC §134.403, (f) states,

The reimbursement calculation used for establishing the MAR shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Outpatient Prospective Payment System (OPPS) reimbursement formula and factors as published annually in the *Federal Register*. The following minimal modifications shall be applied.

- (1) The sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by:
  - (A) 200 percent; unless
  - (B) a facility or surgical implant provider requests separate reimbursement in accordance with subsection (g) of this section, in which case the facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 130 percent.

Review of the submitted medical bill found implants are not applicable. The maximum allowable reimbursement per the above is calculated as follows:

- Procedure code J7050 has status indicator N, for packaged codes integral to the total service package with no separate payment; reimbursement is included with payment for the primary services.
- Procedure code 96361 has status indicator S, for procedures not subject to reduction. This code is assigned APC 5691. The OPPS Addendum A rate is \$37.03, multiplied by 60% for an unadjusted labor amount of \$22.22, in turn multiplied by the facility wage index of 0.8224 for an adjusted labor amount of \$18.27. The non-labor portion is 40% of the APC rate, or \$14.81. The sum of the labor and non-labor portions is \$33.08. The Medicare facility specific amount of \$33.08 is multiplied by 200% for a MAR of \$66.16.
- Procedure code 96365 has status indicator S, for procedures not subject to reduction. This code is assigned APC 5693.
