#### FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation (DWC).

#### **Background**

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.502 sets out the procedures for pharmaceutical benefits.
3. 28 Texas Administrative Code §134.503 sets out the fee guidelines for pharmaceutical services.
4. 28 Texas Administrative Code §134.530 sets out the closed formulary requirements for claims not subject to certified networks.

5. The insurance carrier denied payment based on the absence of preauthorization.

### **Issues**

1. Did the insurance carrier raise a new defense in its response?
2. Is the insurance carrier's reason for denial of payment supported?
3. Is Memorial Compounding Pharmacy (Memorial) entitled to reimbursement for the compound in question?

### **Findings**

1. Memorial is seeking reimbursement for Gabapentin 300 mg capsules and Cyclobenzaprine 10 mg tablets dispensed on December 27, 2018. In its position statement Downs Stanford PC argued on behalf of Electric Insurance Co that the disputed drugs were denied based on medical necessity.

The response from the insurance carrier is required to address only the denial reasons presented to the requestor the request for medical fee dispute resolution (MFDR) was filed with the division. Any new denial reasons or defenses raised shall not be considered for review.

The submitted documentation does not support that a denial based on medical necessity was provided to Memorial before this request for MFDR was filed. Therefore, the division will not consider this argument in the current dispute review as this issue constitutes a new defense

2. The insurance carrier denied the disputed compound based on preauthorization. Preauthorization is only required for:
  - drugs identified with a status of "N" in the current edition of the ODG Appendix A<sup>1</sup>;
  - any compound that contains a drug identified with a status of "N" in the current edition of the ODG Appendix A; and
  - any investigational or experimental drug.<sup>2</sup>

The division finds that the drug in question does not contain an ingredient identified with a status of "N" in the current edition of the ODG, Appendix A.

The submitted documentation does not support that the drug in question constituted a compound drug. Therefore, this drug does not require preauthorization per 28 TAC §134.530(b)(2)(B).

The submitted documentation does not support that the disputed drug is experimental or investigational. Therefore, this drug does not require preauthorization per 28 TAC §134.530(b)(2)(C).

The division concludes that the insurance carrier's denial of payment of the disputed drug based on preauthorization is not supported.

3. Because the insurance carrier failed to sufficiently support its denial of reimbursement, Memorial is entitled to reimbursement.

The reimbursement considered in this dispute is calculated as follows:

- Gabapentin Capsule (1.33900 x 90 x 1.25) = \$150.64
- Cyclobenzaprine Tablets (1.03740 x 90 x 1.25) = \$116.71

The total reimbursement is therefore \$267.35. This amount is recommended.

### **Conclusion**

For the reasons stated above, the Division finds that the requestor has established that additional reimbursement is due. As a result, the amount ordered is \$267.35.
