Pursuant to Rule §133.307(d)(1), if the division does not receive a response within 14 calendar days of dispute notification, the division may base its decision on the available information. To date, no response has been received. Consequently, this decision is based on the information available at the time of review.

This dispute regards outpatient physical therapy services not paid under Medicare's Outpatient Prospective Payment System but using Medicare's Physician Fee Schedule. *DWC Hospital Fee Guideline* Rule §134.403(h) requires use of the fee guideline applicable to the code on the date of service if Medicare pays it using other fee schedules. *DWC Professional Fee Guideline* Rule §134.203(c) requires the maximum allowable reimbursement (MAR) be determined by applying Medicare payment policies modified by DWC rules. The MAR is the sum of the geographically adjusted work, practice expense and malpractice values multiplied by a DWC conversion factor.

Medicare's multiple-procedure payment reduction (MPPR) policy requires the first unit of the therapy code with the highest practice expense be paid in full. Payment is reduced by 50% of the practice expense for each extra unit of therapy (codes with multiple-procedure indicator 5) provided on the same date.

Reimbursement is calculated as follows:

Conclusion

In resolving disputes regarding the amount of payment due for health care determined to be medically necessary and appropriate for treatment of a compensable injury, the role of the division is to adjudicate the payment, given the relevant statutory provisions and division rules. The findings in this decision are based on the evidence available at the time of review. Even though not all the evidence was discussed, it was considered.

For the reasons above, the division finds the requestor has not established that additional payment is due. As a result, the amount ordered is \$0.00.
