Issues

Does the documentation support requestor's position that the disputed bills were submitted timely?

Findings

1. The requestor is seeking payment of \$2,162.00 for anesthesia services rendered on August 2, 2018.
2. According to the explanation of benefits, the respondent denied reimbursement for the disputed services based upon untimely filing bill.
3. To determine if the anesthesia services are eligible for reimbursement the division refers to the following statute:
 - Texas Labor Code §408.027(a) states, "A health care provider shall submit a claim for payment to the insurance carrier not later than the 95th day after the date on which the health care services are provided to the injured employee. Failure by the health care provider to timely submit a claim for payment constitutes a forfeiture of the provider's right to reimbursement for that claim for payment."
 - 28 Texas Administrative Code §133.20(B) states, "Except as provided in Labor Code §408.0272(b), (c) or (d), a health care provider shall not submit a medical bill later than the 95th day after the date the services are provided. In accordance with subsection (c) of the statute, the health care provider shall submit the medical bill to the correct workers' compensation insurance carrier not later than the 95th day after the date the health care provider is notified of the health care provider's erroneous submission of the medical bill. A health care provider who submits a medical bill to the correct workers' compensation insurance carrier shall include a copy of the original medical bill submitted, a copy of the explanation of benefits (EOB) if available, and sufficient documentation to support why one or more of the exceptions for untimely submission of a medical bill under §408.0272 should be applied. The medical bill submitted by the health care provider to the correct workers' compensation insurance carrier is subject to the billing, review, and dispute processes established by Chapter 133, including §133.307(c)(2)(A) - (H) of this title (relating to MDR of Fee Disputes), which establishes the generally acceptable standards for documentation."
 - 28 Texas Administrative Code §102.4(h), states, "Unless the great weight of evidence indicates otherwise,

written communications shall be deemed to have been sent on: (1) the date received, if sent by fax, personal delivery or electronic transmission or, (2) the date postmarked if sent by mail via United States Postal Service regular mail, or, if the postmark date is unavailable, the later of the signature date on the written communication or the date it was received minus five days. If the date received minus five days is a Sunday or legal holiday, the date deemed sent shall be the next previous day which is not a Sunday or legal holiday.”

4. Both parties to this dispute submitted documentation for consideration in support of their position. The division reviewed the documentation and finds:

- The disputed date of service is August 2, 2018.
- The respondent contends they did not receive the disputed bill until December 17, 2018. This date is past the 95 day filing deadline.
- The documentation does not contain any evidence such as a fax, personal delivery, electronic transmission, or certified green cards to support the bill was sent to the respondent within the 95 day deadline.
- The requestor did not sufficiently support that the claim was submitted to the respondent within the 95 day deadline set out in Texas Labor Code §408.027(a) and 28 Texas Administrative Code §133.20(B).
- The respondent’s denial of payment based upon timely filing is supported.

Conclusion

For the reasons stated above, the Division finds that the requestor has not established that reimbursement is due. As a result, the amount ordered is \$0.00.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is entitled to \$0.00 reimbursement for the disputed services.
