Findings

1. The requestor is seeking medical fee dispute resolution in the amount of \$6,280.77 for ASC services rendered on March 6, 2019.
2. The respondent contends that reimbursement of \$35,089.00 was made per the fee guideline.
3. The fee guidelines for disputed services is found in 28 TAC §134.402.

28 TAC §134.402(b) (6) states,

Definitions for words and terms, when used in this section, shall have the following meanings, unless clearly indicated otherwise. "Medicare payment policy" means reimbursement methodologies, models, and values or weights including its coding, billing, and reporting payment policies as set forth in the Centers for Medicare and Medicaid Services (CMS) payment policies specific to Medicare.

28 TAC §134.402(d) states,

For coding, billing, and reporting, of facility services covered in this rule, Texas workers' compensation system participants shall apply the Medicare payment policies in effect on the date a service is provided with any additions or exceptions specified in this section, including the following paragraphs.

The disputed services are described as:

- 63650- "Percutaneous implantation of neurostimulator electrode array, epidural."
 - 63685 - "Insertion or replacement of spinal neurostimulator pulse generator or receiver, direct or inductive coupling."
4. To determine the appropriate reimbursement for CPT codes 63650 and 63685 the DWC refers to 28 TAC §134.402(f). Per ADDENDUM AA, CPT codes 63650 and 63685 are device intensive procedures.

28 TAC §134.402(f)(2)(A)(i)(ii) states,

The reimbursement calculation used for establishing the MAR shall be the Medicare ASC reimbursement amount determined by applying the most recently adopted and effective Medicare Payment System Policies for Services Furnished in Ambulatory Surgical Centers and Outpatient Prospective Payment System reimbursement formula and factors as published annually in the *Federal Register*. Reimbursement shall be based on the fully implemented payment amount as in ADDENDUM AA, ASC COVERED SURGICAL PROCEDURES FOR CY 2008, published in the November 27, 2007 publication of the *Federal Register*, or its successor. The following minimal modifications apply:
(2) Reimbursement for device intensive procedures shall be: (A) the sum of: (i) the ASC device portion; and (ii) the ASC service portion multiplied by 235 percent."

5. The following formula was used to calculate the MAR for 63685:
 - Step 1 calculating the device portion of the procedure:

The national reimbursement is found in the Addendum B for National Hospital Outpatient Prospective Payment System (OPPS) code 63685 for CY 2019 = \$27,891.79

The device dependent APC offset percentage for National Hospital OPPS found in Addendum P for code 63650 for CY 2019 is 82.90%

Multiply these two = \$23,122.29

- Step 2 calculating the service portion of the procedure:

Per Addendum AA, the Medicare ASC reimbursement rate for code 63685 for CY 2019 is \$22,581.16.

This number is divided by 2 = \$11,290.58.

This number multiplied by the City Wage Index for Mansfield, Texas of 0.9703 = \$10,955.24.

The sum of these two is the geographically adjusted Medicare ASC reimbursement = \$22,245.82.

The service portion is found by taking the geographically adjusted rate minus the device portion = -\$876.47.

Multiply the service portion by the DWC payment adjustment of 235% = -\$2,059.70.

- Step 3 calculating the MAR:

The MAR is determined by adding the sum of the reimbursement for the device portion and the service portion = \$21,062.59.

The DWC finds the MAR for CPT code 63685 is \$21,062.59.

6. The following formula was used to calculate the MAR for 63650:

- Step 1 calculating the device portion of the procedure:

The national reimbursement is found in the Addendum B for National Hospital Outpatient Prospective Payment System (OPPS) code 63650 for CY 2019 = \$6,055.61

The device dependent APC offset percentage for National Hospital OPPS found in Addendum P for code 63650 for CY 2019 is 50.80%

Multiply these two = \$3,076.24

- Step 2 calculating the service portion of the procedure:

Per Addendum AA, the Medicare ASC reimbursement rate for code 63650 for CY 2019 is \$4,449.98.

This number is divided by 2 = \$2,224.99.

This number multiplied by the City Wage Index for Mansfield, Texas of 0.9703 = \$2,158.90.

The sum of these two is the geographically adjusted Medicare ASC reimbursement = \$4,383.89.

The service portion is found by taking the geographically adjusted rate minus the device portion = \$1,307.65.

Multiply the service portion by the DWC payment adjustment of 235% = \$3,072.97.

- Step 3 calculating the MAR:

The MAR is determined by adding the sum of the reimbursement for the device portion and the service portion = \$6,046.57.

The DWC finds the MAR for CPT code 63650 is \$6,046.57. The requestor billed for 2 units; therefore, \$6,046.57 X 2 = \$12,093.14.

The DWC finds the MAR for the ASC services rendered on March 6, 2019 is \$33,155.73. The respondent paid \$35,089.00. The DWC finds the requestor is not due additional reimbursement.

Conclusion

For the reasons stated above, the DWC finds that the requestor has not established that additional reimbursement is due. As a result, the amount ordered is \$0.00.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the DWC has determined that the requestor is entitled to \$0.00 reimbursement for the disputed services.
