FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

- 1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
- 2. 28 Texas Administrative Code §134.404 sets out the acute care hospital fee guideline for inpatient services.
- 3. The insurance carrier reduced payment for the disputed services with the following claim adjustment codes:
 - P12 Workers' compensation jurisdictional fee schedule adjustment

Issues

- 1. What is the applicable rule for determining reimbursement for the disputed services?
- 2. Is the requestor entitled to additional payment?

Findings

1. The requestor is seeking reimbursement for inpatient hospital services rendered September 12, 2019. The insurance carrier reduced the allowed amount based on the workers compensation jurisdictional fee schedule.

28 TAC §134.404(f), states the maximum allowable reimbursement (MAR) is the Medicare facility specific amount (including outlier payments) applying Medicare Inpatient Prospective Payment System (IPPS) formulas and factors, as published annually in the Federal Register, with modifications set forth in the rules.

Medicare IPPS formulas and factors are available from the Centers for Medicare and Medicaid Services at <u>http://www.cms.gov</u>.

Separate reimbursement for implantables was not requested; accordingly, Rule §134.404(f)(1)(A) requires that, for these services, the Medicare facility specific amount, including any outlier payment, be multiplied by 143%.

The division calculates the Medicare facility specific amount using Medicare's *Inpatient PPS PC Pricer* as a tool to efficiently identify and apply IPPS formulas and factors. This software is freely available from <u>www.cms.gov</u>.

Note: the "VBP adjustment" listed in the PC Pricer was removed in calculating the facility amount for this admission.

Medicare's Value-Based Purchasing (VBP) program is an initiative to improve quality of care in the Medicare system. However, such programs conflict with Texas Labor Code sections 413.0511 and 413.0512 regarding review and monitoring of health care quality in the Texas workers' compensation system.

Rule §134.404(d)(1) requires that specific Labor Code provisions and division rules take precedence over conflicting CMS provisions for administering Medicare. Consequently, VBP adjustments are not considered in determining the facility reimbursement.

 Review of the submitted medical bill and supporting documentation finds the assigned DRG code to be 492. The service location is Tyler, Texas. Based on DRG code, service location, and bill-specific information, the Medicare facility specific amount is \$19,575.64 (less VBP adjustment of \$102.22) leaves an adjusted Medicare facility specific amount of \$19,473.72. This amount multiplied by 143% results in a MAR of \$27,846.99.

The total recommended payment for the services in dispute is \$27,846.99. The insurance carrier has paid \$27,993.18. No additional payment is recommended.

Conclusion

For the reasons stated above, the division finds that the requestor has not established that additional reimbursement is due. As a result, the amount ordered is \$0.00.

ORDER

Based on the submitted information, pursuant to Texas Labor Code Section 413.031, the division hereby determines the requestor is entitled to \$0.00 additional reimbursement for the services in dispute.
