FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

- 1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.403 sets out the reimbursement guidelines for outpatient hospital services.
3. The insurance carrier reduced or denied the payment for the disputed services with the following claim

adjustment codes:

- 97 – The benefit for this service is included in the payment/allowance for another service/procedure that has already been adjudicated
- P12 – Workers’ compensation jurisdictional fee schedule adjustment
- Z652 – Recommendation of payment is based on a procedure code that best describes the services rendered
- MOPS – Services reduced to the Outpatient Prospective Payment System
- MX80 – Per NCCI, the procedure code is denied, based on standard of medical, surgical practice

Issues

1. What is the applicable rule for determining reimbursement for the disputed services?
2. Is the requestor entitled to additional reimbursement?

Findings

1. The requestor is seeking additional reimbursement in the amount \$3,148.41 for outpatient hospital services rendered on April 25, 2019. The insurance carrier reduced the disputed services based on bundling and workers compensation fee schedule.

28 TAC §134.403 (d) requires Texas workers’ compensation system participants when coding, billing, reporting and reimbursement to apply Medicare payment policies in effect on the date of service.

The Medicare payment policy applicable to the services in dispute is found at www.cms.gov, Claims processing Manual, Chapter 4, Section 10.1.1. Specifically, Payment Status Indicators and Ambulatory Payment Category (APC).

28 TAC 134.403 (f) states in pertinent part the reimbursement calculation used for establishing the MAR shall be the Medicare facility specific amount including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Inpatient Prospective Payment System (IPPS) reimbursement formula and factors as published annually in the *Federal Register*. The sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 143 percent when a separate request for implant reimbursement is not made and 108 percent when separate reimbursement for implants is made.

The Medicare facility specific amount is calculated when the APC payment rate is multiplied by 60% to determine the labor portion. This amount is multiplied by the facility wage index for the date of service. The non-labor amount is determined when the APC payment rate is multiplied by 40%. The sum of the labor portion multiplied by the facility wage index and the non labor portion determines the Medicare specific amount.

Review of the submitted medical bill and the applicable fee guidelines referenced above is shown below.

- Procedure code 73590 has status indicator Q1 and is packaged into the primary J1 APC.
- Procedure code 20680 is assigned APC 5073 with a status indicator of J1. The OPSS Addendum A rate is \$2,378.29, multiplied by 60% for an unadjusted labor amount of \$1,426.97, in turn multiplied by the facility wage index of 0.8597 for an adjusted labor amount of \$1,226.77.

The non-labor portion is 40% of the APC rate, or \$951.32. The sum of the labor and non-labor portions is \$2,178.09.

The Medicare facility specific amount of \$2,178.09 is multiplied by 200% for a MAR of \$4,356.18.

- Procedure code J0330 has status indicator N reimbursement is included with payment for the primary services.
- Procedure code J0690 has status indicator N reimbursement is included with payment for the primary services.

- Procedure code J1100 has status indicator N reimbursement is included with payment for the primary services.
 - Procedure code J1170 has status indicator N reimbursement is included with payment for the primary services.
 - Procedure code J2250 has status indicator N reimbursement is included with payment for the primary services.
 - Procedure code J2405 has status indicator N reimbursement is included with payment for the primary services.
 - Procedure code J2704 has status indicator N reimbursement is included with payment for the primary services.
 - Procedure code J3010 has status indicator N reimbursement is included with payment for the primary services.
 - Procedure code J7120 has status indicator N reimbursement is included with payment for the primary services.
 - Procedure code 64445 is packaged into primary J1 APC.
 - Procedure code 64450 is packaged into primary J1 APC.
2. The total recommended reimbursement for the disputed services is \$4,356.18. The insurance carrier paid \$1,096.80. The requestor is seeking additional reimbursement of \$3,148.41. This amount is recommended.

Conclusion

In resolving disputes over reimbursement for medically necessary health care to treat a compensable injury, the role of DWC is to adjudicate payment following Texas laws and DWC rules. The findings in this decision are based on the evidence available at the time of review. Even though not all the evidence was discussed, it was considered.

For the reasons above the requestor has established payment is due. As a result, the amount ordered is \$3,148.41.

ORDER

In accordance with Texas Labor Code Section 413.031 and 413.019 (if applicable) and based on the submitted information, DWC finds the requestor is entitled to additional reimbursement. DWC hereby ORDERS the respondent to remit to the requestor \$3,148.41, plus accrued interest per Rule §134.130, due within 30 days of receipt of this order.
