Issues

Is the requestor due additional reimbursement for CPT Code 27427 rendered on March 5, 2020?

Findings

1. The requestor is seeking medical fee dispute resolution in the amount of \$1,047.29 for CPT Code 27427 rendered on March 5, 2020.
2. The fee guideline for ASC services is found at 28 TAC §134.402.
3. Per ADDENDUM AA, CPT codes 27427 is a device intensive procedure. The requestor sought separate reimbursement for the implantables; therefore, 28 TAC §134.402(f)(2)(B)(i)(ii) applies to this dispute.

28 TAC §134.402(f)(2)(B)(i)(ii) states,

The reimbursement calculation used for establishing the MAR shall be the Medicare ASC reimbursement amount determined by applying the most recently adopted and effective Medicare Payment System Policies for Services Furnished in Ambulatory Surgical Centers and Outpatient Prospective Payment System reimbursement formula and factors as published annually in the *Federal Register*. Reimbursement shall be based on the fully implemented payment amount as in ADDENDUM AA, ASC COVERED SURGICAL PROCEDURES FOR CY 2008, published in the November 27, 2007 publication of the *Federal Register*, or its successor. The following minimal modifications apply: (2) Reimbursement for device intensive procedures shall be: If an ASC facility or surgical implant provider requests separate reimbursement for an implantable, reimbursement for the device intensive procedure shall be the sum of: (i) the lesser of the manufacturer's invoice amount or the net amount (exclusive of rebates and discounts) plus 10 percent or \$1,000 per billed item add-on, whichever is less, but not to exceed \$2,000 in add-on's per admission; and (ii) the ASC service portion multiplied by 235 percent.

The following formula was used to calculate the MAR:

- Step 1 calculating the device portion of the procedure:

The national reimbursement is found in the Addendum B for National Hospital Outpatient Prospective Payment System (OPPS) code 27427 for CY 2020 = \$5,981.95

The device dependent APC offset percentage for National Hospital OPPS found in Addendum P for code 27427 for CY 2019 is 34.29%

Multiply these two = \$2,051.21

- Step 2 calculating the service portion of the procedure:

Per Addendum AA, the Medicare ASC reimbursement rate for code 27427 for CY 2020 is \$3,630.88. This number is divided by 2 = \$1,815.44.

This number multiplied by the City Wage Index for North Richland Hills, Texas of 0.9747 = \$1,769.51.

The sum of these two is the geographically adjusted Medicare ASC reimbursement = \$3,584.95.

The service portion is found by taking the geographically adjusted rate minus the device portion = \$1,533.74.

Multiply the service portion by the DWC payment adjustment of 235% = \$3,604.29.

- Step 3 calculating the MAR:

The MAR is determined by adding the sum of the reimbursement for the device portion and the service portion = \$5,655.50.

The DWC finds the MAR for CPT code 27427 is \$5,655.50. The respondent paid \$4,205.47. The requestor is seeking a lesser amount than the difference of MAR and paid of \$1,047.29.

Conclusion

For the reasons stated above, the DWC finds that the requestor has established that reimbursement is due. As a result, the amount ordered is \$1,047.29.

ORDER

Based on the submitted information, pursuant to Texas Labor Code Section 413.031 and 413.019 (if applicable), the DWC has determined the requestor is entitled to additional reimbursement for the disputed services. The DWC hereby ORDERS the respondent to remit to the requestor \$1,047.29, plus applicable accrued interest per 28 Texas Administrative Code §134.130 due within 30 days of receipt of this order.
