### FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation.

**Background**

- 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
- 28 Texas Administrative Code §134.403 sets out the reimbursement guidelines for outpatient hospital services.
- The insurance carrier reduced or denied the payment for the disputed services with the following claim

adjustment codes:

- 18 – Duplicate Billing; Service previously paid, adjusted and paid, disallowed, or denied on prior claim form or multiple billing of service(s) billed on same date of service.
- P12 – Worker’s compensation jurisdictional fee schedule adjustment

### **Issues**

1. Is the insurance carrier’s denial supported?
2. What is the applicable rule for determining reimbursement for the disputed services?
3. Is the requestor entitled to additional reimbursement?

### **Findings**

1. The requestor is seeking additional reimbursement in the amount \$659.45 for outpatient hospital services rendered on August 24, 2020. The insurance carrier’s denial of duplicate charge was not supported by additional explanation of benefits or a position statement from the respondent. This denial will not be considered in this review.
2. 28 TAC §134.403 (d) requires Texas workers’ compensation system participants when coding, billing, reporting and reimbursement to apply Medicare payment policies in effect on the date of service.

The Medicare payment policy applicable to the services in dispute is found at [www.cms.gov](http://www.cms.gov), Claims processing Manual, Chapter 4, Section 10.1.1. Specifically, Payment Status Indicators and Ambulatory Payment Category (APC).

28 TAC 134.403 (f) states in pertinent part the reimbursement calculation used for establishing the MAR shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Outpatient Prospective Payment System (OPPS) reimbursement formula and factors as published annually in the *Federal Register*.. The sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 143 percent when a separate request for implant reimbursement is not made and 108 percent when separate reimbursement for implants is made.

The Medicare facility specific amount is calculated when the APC payment rate is multiplied by 60% to determine the labor portion. This amount is multiplied by the facility wage index for the date of service. The non-labor amount is determined when the APC payment rate is multiplied by 40%. The sum of the labor portion multiplied by the facility wage index and the non-labor portion determines the Medicare specific amount.

Review of the submitted medical bill and the applicable fee guidelines referenced above is shown below.

- Procedure code 73502 has status indicator Q1, for STV-packaged codes; reimbursement is packaged with payment for any service assigned status indicator S, T or V.
- Procedure code 70450 has status indicator Q3, for conditionally packaged codes paid as a composite if OPPS criteria are met. As packaging criteria were not met, this line is separate and is assigned APC 5522.

The OPPS Addendum A rate is \$112.08. This is multiplied by 60% for an unadjusted labor amount of \$67.25, in turn multiplied by facility wage index 0.9655 for an adjusted labor amount of \$64.93.

The non-labor portion is 40% of the APC rate, or \$44.83.

The sum of the labor and non-labor portions is \$109.76.

The Medicare facility specific amount is \$109.76. This is multiplied by 200% for a MAR of \$219.52.

- Procedure code 90471 has status indicator Q1, for STV-packaged codes; reimbursement is packaged with payment for any service assigned status indicator S, T or V.
- Procedure code 99284 is assigned APC 5024 with a status indicator V as the criteria for comprehensive packaging was not met. The OPPS Addendum A rate is \$351.79. This is multiplied by 60% for an

unadjusted labor amount of \$211.07, in turn multiplied by facility wage index 0.9655 for an adjusted labor amount of \$203.79.

The non-labor portion is 40% of the APC rate, or \$140.72. The sum of the labor and non-labor portions is \$344.51.

The Medicare facility specific amount is \$344.51. This is multiplied by 200% for a MAR of \$689.02.

- Procedure code 90715 has status indicator N reimbursement is included with payment for the primary services.
3. The total recommended reimbursement for the disputed services is \$908.54. The insurance carrier paid \$248.44. The requestor is seeking additional reimbursement of \$659.45. This amount is recommended.

### **Conclusion**

In resolving disputes over reimbursement for medically necessary health care to treat a compensable injury, the role of DWC is to adjudicate payment following Texas laws and DWC rules. The findings in this decision are based on the evidence available at the time of review. Even though not all the evidence was discussed, it was considered.

For the reasons above the requestor has established payment is due. As a result, the amount ordered is \$659.45.

### **ORDER**

In accordance with Texas Labor Code Section 413.031 and 413.019 (if applicable) and based on the submitted information, DWC finds the requestor is entitled to additional reimbursement. DWC hereby ORDERS the respondent to remit to the requestor \$659.45, plus accrued interest per Rule §134.130, due within 30 days of receipt of this order.
