FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.404 sets out the acute care hospital fee guideline for inpatient services.
3. The insurance carrier reduced payment for the disputed services with the following claim adjustment codes:
    - 426 – Reimbursed to fair and reasonable

Issues

1. Is the insurance carrier's position supported?
2. What is the applicable rule for determining reimbursement for the disputed services?
3. Is the requestor entitled to additional payment?

Findings

1. The requestor is seeking additional reimbursement for an inpatient hospital stay rendered in July and August 2020. The insurance carrier states, "the LTCH pricer for CY 2020 was utilized." Review of the submitted medical bill found the NPI listed for the rendering provider is 1740273994. This NPC number indicates the facility is licensed as "General Acute Care Hospital." The type of bill is "111" Inpatient. The insurance carrier's position is not supported. The service in dispute will be calculated per applicable fee guideline.

2. 28 Texas Administrative Code §134.404(f), requires the maximum allowable reimbursement (MAR) to be the Medicare facility specific amount (including outlier payments) applying Medicare Inpatient Prospective Payment System (IPPS) formulas and factors, as published annually in the Federal Register, with modifications set forth in the rules. Medicare IPPS formulas and factors are available from the Centers for Medicare and Medicaid Services at http://www.cms.gov.

   Note: the "VBP adjustment" listed in the *PC Pricer* will be removed in calculating the facility amount for this admission. Medicare's Value-Based Purchasing (VBP) program is an initiative to improve quality of care in the Medicare system. However, such programs conflict with Texas Labor Code sections 413.0511 and 413.0512 regarding review and monitoring of health care quality in the Texas workers' compensation system. Rule §134.404(d)(1) requires that specific Labor Code provisions and division rules take precedence over conflicting CMS provisions for administering Medicare. Consequently, VBP adjustments are not considered in determining the facility reimbursement.

   Separate reimbursement for implants was not requested; accordingly, Rule §134.404(f)(1)(A) requires that, for these services, the Medicare facility specific amount, including any outlier payment, be multiplied by 143%.

3. Review of the submitted medical bill and supporting documentation finds the assigned DRG code to be 208. The service location is Odessa, Texas. Based on DRG code, service location, and bill-specific information, the Medicare facility specific amount is $18,846.15. This amount multiplied by 143% results in a MAR of $26,949.99.

   The total recommended payment for the services in dispute is $26,949.99. The insurance carrier has paid $8,083.35. The amount due to the requestor is $18,866.64. This amount is recommended.

Conclusion

For the reasons stated above, the division finds that the requestor has established that additional reimbursement is due. As a result, the amount ordered is $18,866.64.

ORDER

Based on the submitted information, pursuant to Texas Labor Code Section 413.031 and 413.019 (if applicable), the division has determined the requestor is entitled to additional reimbursement for the disputed services. The division hereby ORDERS the respondent to remit to the requestor $18,866.64 plus applicable accrued interest per 28 Texas Administrative Code §134.130 due within 30 days of receipt of this order.
