### Issues

Is the requestor entitled to additional reimbursement for ASC services related to CPT code 29877 rendered on December 4, 2020?

### Findings

1. The requestor is seeking medical fee dispute resolution in the amount of \$1,686.57 for ASC services related to CPT code 29879 rendered on December 4, 2020.
2. The respondent contends that no additional reimbursement is due because payment of \$1,285.91 was made per the fee guideline.
3. The fee guidelines for disputed services is found in 28 TAC §134.402.

28 TAC §134.402(b) (6) states,

Definitions for words and terms, when used in this section, shall have the following meanings, unless clearly indicated otherwise. "Medicare payment policy" means reimbursement methodologies, models, and values or weights including its coding, billing, and reporting payment policies as set forth in the Centers for Medicare and Medicaid Services (CMS) payment policies specific to Medicare.

28 TAC §134.402(d) states,

For coding, billing, and reporting, of facility services covered in this rule, Texas workers' compensation system participants shall apply the Medicare payment policies in effect on the date a service is provided with any additions or exceptions specified in this section, including the following paragraphs.

The disputed service is described as:

- 29877- Arthroscopy, knee, surgical; debridement/shaving of articular cartilage (chondroplasty).

The DWC finds the documentation supports extensive multiple tissue debridement and shaving to support billed service; therefore, the respondent's denial is not supported.

4. Per ADDENDUM AA, CPT code 29877 is a non-device intensive procedure.

28 TAC §134.402(f)(1)(A) states,

The reimbursement calculation used for establishing the MAR shall be the Medicare ASC reimbursement amount determined by applying the most recently adopted and effective Medicare Payment System Policies for Services Furnished in Ambulatory Surgical Centers and Outpatient Prospective Payment System reimbursement formula and factors as published annually in the Federal Register. Reimbursement shall be based on the fully implemented payment amount as in ADDENDUM AA, ASC COVERED SURGICAL PROCEDURES FOR CY 2008, published in the November 27, 2007 publication of the Federal Register, or its successor. The following minimal modifications apply: (1) Reimbursement for non-device intensive procedures shall be: A) The Medicare ASC facility reimbursement amount multiplied by 235 percent.

The following formula was used to calculate the MAR:

The Medicare ASC reimbursement for code 29877 CY 2020 is \$1,286.26.

The Medicare ASC reimbursement is divided by 2 = \$643.13.

This number multiplied by the City Wage Index for Plano, Texas of 0.9747= \$626.86.

Add these two together = \$1,269.99.

To determine the MAR, multiply the geographically adjusted Medicare ASC reimbursement by the DWC payment adjustment factor of 235% = \$2,984.47. The respondent paid \$1,285.91. The DWC finds the requestor is due reimbursement of \$1,698.57.

### Conclusion

For the reasons stated above, the DWC finds that the requestor has established that reimbursement is due. As a result, the amount ordered is \$1,698.57.

### **ORDER**

Based on the submitted information, pursuant to Texas Labor Code Section 413.031 and 413.019 (if applicable), the DWC has determined the requestor is entitled to additional reimbursement for the disputed services. The DWC hereby ORDERS the respondent to remit to the requestor \$1,698.57, plus applicable accrued interest per 28 TAC §134.130 due within 30 days of receipt of this order.
