**FINDINGS AND DECISION**

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation (DWC).

**Background**

1. 28 Texas Administrative Code §133.307 (TAC), effective May 31, 2012 sets out the procedures for resolving a medical fee dispute.
2. 28 TAC §134.203, effective March 1, 2008, sets out the fee guidelines for reimbursement of

professional medical services provided in the Texas workers' compensation system.

3. 28 TAC §134.225, effective July 7, 2016, sets the reimbursement guidelines for FCEs.
4. The insurance carrier reduced payment for the disputed services with the following claim adjustment code:
  - P12-Workers' compensation jurisdictional fee schedule adjustment.
  - 296-Service exceeds maximum reimbursement guidelines.
  - W3-Additional payment made on appeal/reconsideration.
  - 193-Original payment decision is being maintained. Upon review, it was determined that this claim was processed properly.

### **Issues**

Is the requestor entitled to reimbursement for CPT code 97750-FC-GP (X4) rendered on August 3, 2020?

### **Findings**

1. The requestor is seeking medical fee dispute resolution for CPT code 97750-FC-GP (X4) rendered on August 3, 2020 in the amount of \$300.00.
2. CPT code 97750 is described as "Physical performance test or measurement (eg, musculoskeletal, functional capacity), with written report, each 15 minutes." The requestor appended modifier "GP- Services delivered under an outpatient physical therapy plan of care," and "FC-Functional capacity." 28 TAC 134.210(e)(3) states, "The following division modifiers shall be used by health care providers billing professional medical services for correct coding, reporting, billing, and reimbursement of the procedure codes. (3) FC, functional capacity--This modifier shall be added to CPT code 97750 when a functional capacity evaluation is performed." The DWC finds the disputed service is an FCE.
3. According to the explanation of benefits, the carrier paid \$0.00 for the disputed FCE based upon the test exceeded the fee guideline.
4. The applicable fee guideline for FCEs is found at 28 TAC §134.225.
5. 28 TAC §134.225 states:

The following applies to functional capacity evaluations (FCEs). A maximum of three FCEs for each compensable injury shall be billed and reimbursed. FCEs ordered by the division shall not count toward the three FCEs allowed for each compensable injury. FCEs shall be billed using CPT code 97750 with modifier "FC." FCEs shall be reimbursed in accordance with §134.203(c)(1) of this title. Reimbursement shall be for up to a maximum of four hours for the initial test or for a division ordered test; a maximum of two hours for an interim test; and a maximum of three hours for the discharge test, unless it is the initial test. Documentation is required. "

Based upon the submitted documentation, the DWC finds claimant had an FCE on December 9, 2013, April 23, 2020, and May 21, 2020. The disputed FCE is the fourth FCE. The requestor did not support that the disputed FCE was a division ordered test and met exception to number of tests allowed per the fee guideline; therefore, reimbursement is not recommended.

### **Conclusion**

For the reasons stated above, the DWC finds that the requestor has not established that reimbursement is due. As a result, the amount ordered is \$0.00.

**ORDER**

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the DWC has determined that the requestor is entitled to \$0.00 reimbursement for the disputed services.
