FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

- 1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.1 sets out reimbursement guidelines for workers compensation medical claims.
3. The insurance carrier reduced/denied the disputed services with the following reason codes:
- 370 - This Hospital Outpatient allowance was calculated according to the APC rate plus a markup
- 616 - This code has a status Q APC and is packaged into other APC codes that have been identified by CMS.
- P12 Workers' compensation jurisdictional fee schedule adjustment

**Issues**

What rule is applicable to reimbursement?

**Findings**

The requestor is seeking additional reimbursement of services rendered in a Critical Access Hospital. In their reconsideration they reference DWC Rule 134.403 and 134.404.

These rules apply to acute inpatient hospital care and acute outpatient hospital care. Review of the submitted medical bill finds the rendered services were performed at UT Health Quitman whose NPI indicates a Critical Access Hospital. The referenced rules do not apply.

Under the division’s general reimbursement Rule at 28 TAC §134.1(e), payment for health care is calculated by applying a fee from an adopted Division rule or by applying a negotiated contract rate. In the absence of an applicable fee guideline or a negotiated contract, the payment is subject to the division’s general fair and reasonable requirements described in 28 TAC 134.1 (f).

There is no fee guideline for services provided in a Critical Access Hospital. No evidence of a contract was submitted. The DWC general fair and reasonable standard of payment applies to the disputed services.

DWC Rule 28 TAC 134.1(f) required the health care provider to support their suggested reimbursement is consistent with the criteria of Labor Code §413.011 by providing documentation of similar procedures provided in similar circumstances received similar reimbursement; and their suggested reimbursement is based on nationally recognized published studies, published Division medical dispute decisions, and/or values assigned for services involving similar work and resource commitments, if available.

Review of the submitted positional statement did not meet the criteria described above. No additional reimbursement is recommended.

**Conclusion**

In resolving disputes over reimbursement for medically necessary health care to treat a compensable injury, the role of DWC is to adjudicate payment following Texas laws and DWC rules. The findings in this decision are based on the evidence available at the time of review. Even though not all the evidence was discussed, it was considered.

For the reasons above the requestor has not established payment is due. As a result, the amount ordered is \$0.00.

***ORDER***

Based on the submitted information, pursuant to Texas Labor Code Section 413.031, the division hereby determines the requestor is entitled to \$0.00 additional reimbursement for the services in dispute.
