Requestor's Position

DESIGNATED DOCTOR REFERRED TESTING INCORRECT REDUCTION...The carrier has not paid this claim in accordance and compliance with TDI-DWC Rule 133 and 134."

Amount in Dispute: \$3,924.44

Respondent's Position

The Austin carrier representative for Arch Insurance Co. is Flahive, Ogden & Latson. Flahive, Ogden & Latson received a copy of this medical fee dispute on July 20, 2021. Rule §133.307(d)(1) states that if the division does not receive the response within 14 calendar days of the dispute notification, then the division may base its decision on the available information

As of today, no response has been received from the carrier or its representative. We therefore base this decision on the information available as authorized under §133.307(d)(1).

Findings and Decision

Authority

This medical fee dispute is decided according to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation (DWC).

Statutes and Rules

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 TAC §134.203, sets out the fee guidelines for reimbursement of professional medical services provided in the Texas workers' compensation system.
3. 28 TAC §127.10, sets out the procedures for Designated Doctor examinations.

Denial Reasons

1. Neither party to this dispute submitted explanation of benefits.

Issues

1. Is Dr. Gabriel Jasso entitled to reimbursement?

Findings

1. The requestor is seeking medical fee dispute resolution in the amount of \$3,924.44 for psychological evaluation and testing rendered on August 11, 2020.

To determine if the respondent's denial of payment is supported, the DWC refers to the following statute:

- The fee guideline for disputed services is found at 28 TAC§134.203.
- 28 TAC §134.203(a)(5) states, "Medicare payment policies" when used in this section, shall mean reimbursement methodologies, models, and values or weights including its coding, billing, and reporting payment policies as set forth in the Centers for Medicare and Medicaid Services (CMS) payment policies specific to Medicare."
- 28 TAC §134.203(b)(1) states, "For coding, billing, reporting, and reimbursement of professional medical services, Texas workers' compensation system participants shall apply the following: (1) Medicare payment policies, including its coding; billing; correct coding initiatives (CCI) edits; modifiers; bonus payments for health professional shortage areas (HPSAs) and physician scarcity areas (PSAs); and other payment policies in effect on the date a service is provided with any additions or exceptions in the rules."

On the disputed date of service, the requestor billed CPT codes 96116, 96121, 96132, 96133, 96136, and 96137. These codes are described as:

- CPT code 96116-“Neurobehavioral status exam (clinical assessment of thinking, reasoning and judgment, [eg, acquired knowledge, attention, language, memory, planning and problem solving, and visual spatial abilities]), by physician or other qualified health care professional, both face-to-face time with the patient and time interpreting test results and preparing the report; first hour.”
- CPT code 96121-“Neurobehavioral status exam (clinical assessment of thinking, reasoning and judgment, [eg, acquired knowledge, attention, language, memory, planning and problem solving, and visual spatial abilities]), by physician or other qualified health care professional, both face-to-face time with the patient and time interpreting test results and preparing the report; each additional hour (List separately in addition to code for primary procedure).”
- CPT code 96132-“Neuropsychological testing evaluation services by physician or other qualified health care professional, including integration of patient data, interpretation of standardized test results and clinical data, clinical decision making, treatment planning and report, and interactive feedback to the patient, family member(s) or caregiver(s), when performed; first hour.”
- CPT code 96133-“Neuropsychological testing evaluation services by physician or other qualified health care professional, including integration of patient data, interpretation of standardized test results and clinical data, clinical decision making, treatment planning and report, and interactive feedback to the patient, family member(s) or caregiver(s), when performed; each additional hour (List separately in addition to code for primary procedure).”
- CPT code 96136-“Psychological or neuropsychological test administration and scoring by physician or other qualified health care professional, two or more tests, any method; first 30 minutes.”
- CPT code 96137-“Psychological or neuropsychological test administration and scoring by physician or other qualified health care professional, two or more tests, any method; each additional 30 minutes (List separately in addition to code for primary procedure).”

As noted from the code descriptors, all of the codes are timed procedures. CPT codes 96133 and 96137 are billed as secondary codes to 96132 and 96136 for additional time.

NCCI Policy Manual, Chapter 11, (M)(2), effective January 1, 2020 states, “The psychiatric diagnostic interview examination (CPT codes 90791, 90792), psychological/neuropsychological testing (CPT codes 96136-96146), and psychological / neuropsychological evaluation services (CPT codes 96130-96133) must be distinct services if reported on the same date of service. CPT Manual instructions permit physicians to integrate other sources of clinical data into the report that is generated for CPT codes 96130-96133. Since the procedures described by CPT codes 96130-96139 are timed procedures, physicians shall not report time for duplicating information (collection or interpretation) included in the psychiatric diagnostic interview examination and/or psychological/neuropsychological evaluation services or test administration and scoring. (CPT codes 96101 and 96118 were

deleted January 1, 2019.)

The requestor noted on the Neuropsychological Examination report that the claimant underwent 10 hours of Neuropsychological testing evaluation services; 4 hour of Examinee Interview & Neurobehavioral/Mental Status Exam services; and 10 hours of Neuropsychological Testing and Scoring, for a total of 24 hours.

The requestor did not bill in accordance with NCCI Policy Manual, Chapter 11, (M)(2), because "procedures described by CPT codes 96130-96139 are timed procedures, physicians shall not report time for duplicating information (collection or interpretation) included in the psychiatric diagnostic interview examination and/or psychological/neuropsychological evaluation services or test administration and scoring." The report does not list the start and end time of time procedure codes 96116, 96121, 96132, 96133, 96136, and 96137 to support the number of hours billed. The requestor's documentation does not support the services billed were in accordance with the fee guideline.

Conclusion

The outcome of this medical fee dispute is based on the evidence presented by the requestor and the respondent at the time of adjudication. Though all evidence may not have been discussed, it was considered.

DWC finds the requester has not established that additional reimbursement is due.

Order

Under Texas Labor Code §§413.031 and 413.019, DWC has determined the requestor is not entitled to additional reimbursement for the disputed services.
