Findings

The requestor seeks reimbursement of \$31.66 for professional medical services rendered on October 29, 2020. The insurance carrier reduced the payment amount with reduction code P12 (description provided above.)

Review of the submitted medical records, documents that the visit dated October 29, 2020 was a telemedicine visit. The Medical bill also indicate modifier -95 to identify that the service was a telemedicine visit. The DWC therefore concludes that the service in dispute is documented as a telemedicine visit.

Per 28 TAC §133.30 a health care provider may bill and be reimbursed for telemedicine and telehealth services regardless of the geographical area or location of the injured employee. Telehealth and telemedicine services are billed as professional services. Reimbursement for professional services is established by the Medical Fee Guideline for Professional Services, 28 TAC §134.203.

28 TAC §134.203(b)(1) states in part “For coding, billing, reporting, and reimbursement of professional medical services, Texas workers' compensation system participants shall apply the following: (1) Medicare payment policies, including its coding; billing; correct coding initiatives (CCI) edits; modifiers; bonus payments for health professional shortage areas (HPSAs) and physician scarcity areas (PSAs); and other payment policies in effect on the date a service is provided with any additions or exceptions in the rules.” The requestor’s supplemental position statement references the CMS Interim Final Rule 19230-01 stating “According to that rule, the reimbursement rates for in person medical visits and the reimbursement rates for telemedicine visits are the same. Since the Medicare reimbursement rates are the basis for Worker’s Compensation payments in Texas, the attached rule controls.” Review of the CMS Interim Final Rule 19230, effective March 31, 2020, finds that Medicare changed the reimbursement rates for telemedicine services to health care providers from the facility rate to the non-facility rate.

28 TAC §134.203 (a)(7) states that specific Texas Labor Code provisions and division rules take precedence over conflicting CMS provisions administering Medicare. The division finds no provisions in the Labor Code or its adopted rules that conflict with the CMS Interim Final Rule 19230. As there are no conflicts, the maximum allowable reimbursement (MAR) for telemedicine services provided in the workers’ compensation services follow Medicare payment policies. As Medicare reimburses telemedicine services under the non-facility rate per Interim Final Rule 19230, the division finds that the MAR for telemedicine services is calculated using the non-facility rate.

DWC now considers whether the disputed services are covered telemedicine or telehealth services. Review of the Medicare Covered Telehealth services at <https://www.cms.gov/Medicare/Medicare-General-Information/Telehealth/Telehealth-Codes>, found that the disputed services are CPT Codes listed in the covered telehealth code list. The disputed codes are therefore subject to reimbursement pursuant to 28 TAC §134.203.

28 TAC §134.203 (c)(1)(2) states in pertinent part, “To determine the Maximum Allowable Reimbursement (MAR) for professional services, system participants shall apply the Medicare payment policies with minimal modifications. (1) For service categories of Evaluation & Management, General Medicine, Physical Medicine and Rehabilitation, Radiology, Pathology, Anesthesia, and Surgery when performed in an office setting, the established conversion factor to be applied is \$52.83. For Surgery when performed in a facility setting, the established conversion factor to be applied is \$66.32. (2) The conversion factors listed in paragraph (1) of this subsection shall be the conversion factors for calendar year 2008. Subsequent year's conversion factors shall be determined by applying the annual percentage adjustment of the Medicare Economic Index (MEI) to the previous year's conversion factors and shall be effective January 1st of the new calendar year. ...”

Reimbursement is calculated as follows:

DOS	CPT CODE	# UNITS	AMOUNT PAID	MAR	MAR - Amount Paid = Amount Due	DISPUTED AMOUNT	AMOUNT DUE
10/29/20	99213-95	1	\$87.35	\$127.95	\$127.95 - \$87.35 = \$40.60	\$31.66	\$31.66
TOTAL			\$87.35	\$127.95	\$40.60	\$31.66	\$31.66

Per 28 TAC §134.203 (h)(1-2), "...When there is no negotiated or contracted amount that complies with Labor Code §413.011, reimbursement shall be the least of the: (1) MAR amount; (2) health care provider's usual and customary charge, unless directed by Division rule to bill a specific amount; (3) fair and reasonable amount consistent with the standards of §134.1 of this title." The DWC finds that the requestor is entitled to a total recommended amount of \$31.66.

Conclusion

The outcome of this medical fee dispute is based on the evidence presented by the requestor and the respondent at the time of adjudication. Though all evidence may not have been discussed, it was considered.

DWC finds the requester has established that additional reimbursement of \$31.66 is due.

Order

Under Texas Labor Code §§413.031 and 413.019, DWC has determined the requester is entitled to additional reimbursement for the disputed services. It is ordered that the Respondent must remit to Requester \$31.66 plus applicable accrued interest within 30 days of receiving this order in accordance with 28 TAC §134.130.
