# **Findings and Decision**

### <u>Authority</u>

This medical fee dispute is decided according to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation (DWC).

#### Statutes and Rules

- 1. 28 TAC §133.307 sets out the procedures for resolving medical fee disputes.
- 2. 28 TAC §134.403 sets out the fee guidelines for outpatient hospital services.

#### **Denial Reasons**

The insurance carrier reduced the payment for the disputed services with the following claim adjustment codes:

- 97 The benefit for this service in included in the pymt/allowance for another service/procedure that has already been adjudicated
- P12 Workers' compensation jurisdictional fee schedule adjustment

#### <u>Issues</u>

- 1. What rule applies for determining reimbursement for the disputed services?
- 2. Is the requester entitled to additional reimbursement?

# <u>Findings</u>

1. The requestor is seeking additional reimbursement for outpatient hospital services rendered in September 2020. The insurance carrier reduced the payment based on the workers' compensation fee schedule.

DWC Rule 28 TAC §134.403 (d) requires Texas workers' compensation system participants when coding, billing, reporting and reimbursement to apply Medicare payment policies in effect on the date of service.

The Medicare payment policy applicable to the services in dispute is found at <a href="https://www.cms.gov">www.cms.gov</a>, Claims processing Manual, Chapter 4, Section 10.1.1. Specifically, Payment Status Indicators and Ambulatory Payment Category (APC).

DWC Rule 28 TAC 134.403 (f) states in pertinent part the reimbursement calculation used for

establishing the MAR shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Outpatient Prospective Payment System (OPPS) reimbursement formula and factors as published annually in the *Federal Register*.

The Medicare facility specific amount is calculated when the APC payment rate is multiplied by 60% to determine the labor portion. This amount is multiplied by the facility wage index for the date of service. The non-labor amount is determined when the APC payment rate is multiplied by 40%. The sum of the labor portion multiplied by the facility wage index and the non-labor portion determines the Medicare specific amount. Review of the submitted medical bill and the applicable fee guidelines referenced above is shown below.

 Procedure code 25000 has status indicator J1 and is assigned APC 5112. The OPPS Addendum A rate is \$1,355.39. This is multiplied by 60% for an unadjusted labor amount of \$813.23, in turn multiplied by facility wage index 0.8433 for an adjusted labor amount of \$685.80.

The non-labor portion is 40% of the APC rate, or \$542.16.

The sum of the labor and non-labor portions is \$1,227.96.

The Medicare facility specific amount is \$1,227.96 multiplied by 200% for a MAR of \$2,455.92.

- Procedure code 96374 is bundled into the J1 procedure 25000. No separate payment is recommended.
- 2. The total recommended reimbursement for the disputed services is \$2,455.92. The insurance carrier paid \$700.23. The amount due is \$1,755.69. This amount is recommended.

#### Conclusion

The outcome of this medical fee dispute is based on the evidence presented by the requestor and the respondent at the time of adjudication. Though all evidence may not have been discussed, it was considered.

DWC finds the requester has established that additional reimbursement of \$1,755.69 is due.

### **Order**

Under Texas Labor Code §§413.031 and 413.019, DWC has determined the requestor is [not] entitled to additional reimbursement for the disputed services. It is ordered that State Office of Risk Management must remit to Doctor's Hospital Renaissance \$1,755.69 plus applicable accrued interest within 30 days of receiving this order in accordance with 28 TAC §134.130.}
