Findings and Decision

Authority

This medical fee dispute is decided according to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation (DWC).

Statutes and Rules

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.403 sets out the reimbursement guidelines for outpatient hospital services.
3. 28 Texas Administrative Code §134.203 sets out the reimbursement guidelines for professional medical services.

Denial Reasons

The insurance carrier reduced or denied the payment for the disputed services with the following claim adjustment codes:

- 193 – Original payment decision is being maintained. Upon review, it was determined that this claim was processed properly
- 356 – This outpatient allowance was based on the Medicare's methodology (Part B) plus the Texas markup
- 650 – Allowance is reduced per the multiple procedure payment reduction for selected therapy services
- P12 – Workers' compensation jurisdictional fee schedule adjustment
- 714 – Accurate license, CPT/HCPCS, dates, units, days supply, modifiers are essential for reimbursement.

Issues

1. Is Insurance carrier's reduction based on the fee schedule supported?
2. Is the requestor entitled to additional reimbursement?

Findings

1. The requestor is seeking additional reimbursement for outpatient therapy services performed in April 2021. The carrier reduced the allowed amount based on the workers compensation fee schedule and multiple procedure payment rules.

DWC Rule 28 TAC 134.403 applies to outpatient hospital services. Section (h) requires when Medicare reimburses using other Medicare fee schedules, reimbursement is made using the applicable Division Fee Guideline in effect for that service on the date was provided.

The applicable DWC fee guideline for physical therapy is 28 TAC §134.203 (b) (1) which requires the application of Medicare payment policies applicable to professional services. The insurance carrier’s reduction of payment is supported.

The Medicare multiple procedure payment reduction (MPPR) applies to the Practice Expense (PE) of certain time-based physical therapy codes when more than one unit or procedure is provided to the same patient on the same day.

The MPPR policy allows for full payment for the unit or procedure with the highest Practice Expense (PE) payment factor and for subsequent units the Practice Expense (PE) payment factor is reduced by 50 percent.

Review of the submitted medical bill provided indicates that three procedures were billed by the health care provider. In order to determine the MPPR allowable, the services provided are ranked by their PE expense shown below.

Code	Practice Expense	Allowed Amount	Medicare Policy
97110	0.4	29.44/22.77	Full payment 1 st unit, 50% reduction 2 nd – 4 th
97164	1	67.64	April 29 th highest PE no reduction
97140	0.35	27.07/21.24	MPPR applies 50% payment

The *MPPR Rate File* that contains the payments for 2021 services is found at <https://www.cms.gov/Medicare/Billing/TherapyServices/index.html>.

- MPPR rates are published by carrier and locality.
- The services were provided in Odessa Texas.
- The carrier code for Texas is 4412 and the locality code for Odessa is 99.

The following formula represents the calculation of the DWC MAR at §134.203 (c)(1) & (2).

$$(\text{DWC Conversion Factor} \div \text{Medicare Conversion Factor}) \times \text{Medicare Payment} = \text{MAR}$$

Applicable 28 TAC 134.203(h) states that the total reimbursement is the lesser of the maximum allowable reimbursement (MAR) and the billed amount.

	Code	Units	Medicare Payment		Billed Amount	Lesser of MAR and
--	------	-------	------------------	--	---------------	-------------------

Date of Service				DWC Conversion Factor divided by Medicare Conversion Factor or $61.17 \div 31.8931 = 1.91$		billed amount
