Findings and Decision

Authority

This medical fee dispute is decided according to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation (DWC).

Statutes and Rules

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 TAC §134.203 sets out the fee guidelines for professional services.
3. 28 TAC §134.239 sets out medical fee guidelines for workers' compensation specific services.
4. 28 TAC §129.5 sets out the procedure for reporting and billing work status reports.

Denial Reasons

The insurance carrier denied the payment for the disputed services with the following claim adjustment codes:

- 150, 90168-Payment adjusted because the payer deems the information submitted does not support the level of service.
- 5352-Service reduced/denied as level of E&M code submitted is not supported by documentation.
- B13, 90202-Previously paid. Payment for this claim/service may have been provided in a previous payment.
- 247-A payment or denial has already been recommended for this service.
- B12, 00201-Services not documented in patients' medical records.
- 5347-Documentation on the CMS-1500 or UB04 is not supported by the information in the medical record.

Issues

1. Is Indemnity Insurance Co. of North America's denial of payment for CPT code 99204 rendered on March 14, 2021 based on information did not support level of service?
2. Is Indemnity Insurance Co. of North America's denial of payment for CPT code 99080-73 supported?

Findings

1. The requestor is seeking medical fee dispute resolution in the amount of \$313.41 for disputed services rendered on March 14, 2021 and April 2, 2021.

The respondent denied reimbursement for CPT code 99204 based on reason codes "150, 90168-Payment adjusted because the payer deems the information submitted does not support the level of service," and "5352-Service reduced/denied as level of E&M code

submitted is not supported by documentation.”

The fee guideline for CPT code 99204 is found at 28 TAC §134.203.

28 TAC §134.203(a)(5) states, “Medicare payment policies” when used in this section, shall mean reimbursement methodologies, models, and values or weights including its coding, billing, and reporting payment policies as set forth in the Centers for Medicare and Medicaid Services (CMS) payment policies specific to Medicare.”

CPT code 99204 is described as, “Office or other outpatient visit for the evaluation and management of a new patient, which requires a medically appropriate history and/or examination and a moderate level of medical decision making. When using time for code selection, 45-59 minutes of the total time is spent on the date of the encounter.”

The division finds the submitted report supports billing code 99204; therefore, reimbursement is recommended.

28 TAC §134.203(c)(1) states “To determine the MAR for professional services, system participants shall apply the Medicare payment policies with minimal modifications. (1) For service categories of Evaluation & Management, General Medicine, Physical Medicine and Rehabilitation, Radiology, Pathology, Anesthesia, and Surgery when performed in an office setting, the established conversion factor to be applied is \$52.83.”

28 Texas Administrative Code §134.203(c)(2) states “The conversion factors listed in paragraph (1) of this subsection shall be the conversion factors for calendar year 2008. Subsequent year's conversion factors shall be determined by applying the annual percentage adjustment of the Medicare Economic Index (MEI) to the previous year's conversion factors, and shall be effective January 1st of the new calendar year. The following hypothetical example illustrates this annual adjustment activity if the Division had been using this MEI annual percentage adjustment: The 2006 Division conversion factor of \$50.83 (with the exception of surgery) would have been multiplied by the 2007 MEI annual percentage increase of 2.1 percent, resulting in the \$51.90 (with the exception of surgery) Division conversion factor in 2007.”

- Review of Box 32 on the CMS-1500 finds that the services were rendered in zip code 75211 which is located in Dallas, Texas; therefore, the Medicare locality is “Dallas, Texas.”
- The Medicare participating amount for CPT code 99204 at this locality is \$170.22
- The DWC conversion factor for 2021 is 61.17
- The Medicare conversion factor for 2021 is 34.8931.

To determine the MAR the following formula is used: (DWC Conversion Factor/Medicare Conversion Factor) X Medicare Payment = Maximum Allowable Reimbursement (MAR).

Using the above formula, the MAR is \$298.41. The respondent paid \$0.00. The difference between MAR and amount paid is \$298.41.

2. The respondent denied reimbursement for CPT code 99080-73 rendered on April 2, 2021 based upon reason code “B12, 00201-Services not documented in patients’ medical records,” and

"5347-Documentation on the CMS-1500 or UB04 is not supported by the information in the medical record."

CPT code 99080-73 is described as "Special reports such as insurance forms, more than the information conveyed in the usual medical communications or standard reporting form."

28 TAC §134.239 states, "When billing for a work status report that is not conducted as a part of the examinations outlined in §134.240 and §134.250 of this title, refer to §129.5 of this title."

28 TAC §129.5(i)(1) states "Notwithstanding any other provision of this title, a doctor may bill for, and a carrier shall reimburse, filing a complete Work Status Report required under this section or for providing a subsequent copy of a Work Status Report which was previously filed because the carrier, its agent, or the employer through its carrier, asks for an extra copy. The amount of reimbursement shall be \$15. A doctor shall not bill in excess of \$15 and shall not bill or be entitled to reimbursement for a Work Status Report which is not reimbursable under this section. Doctors are not required to submit a copy of the report being billed for with the bill if the report was previously provided. Doctors billing for Work Status Reports as permitted by this section shall do so as follows: (1) CPT code "99080" with modifier "73" shall be used when the doctor is billing for a report required under subsections (d)(1), (d)(2), and (f) of this section."

28 TAC §129.5 (d)(1) and (2) states "The doctor shall file the Work Status Report:

- (1) after the initial examination of the employee, regardless of the employee's work status;
- (2) when the employee experiences a change in work status or a substantial change in activity restrictions."

A comparison between the March 17, 2021 and April 2, 2021 reports finds the requestor did not support a substantial change in activity restrictions; therefore, the respondent's denial of payment is supported.

Conclusion

The outcome of this medical fee dispute is based on the evidence presented by the requestor and the respondent at the time of adjudication. Though all evidence may not have been discussed, it was considered.

DWC finds the requestor has established that additional reimbursement of \$298.41 is due.

Order

Under Texas Labor Code §§413.031 and 413.019, DWC has determined the requestor is entitled to additional reimbursement for the disputed services. It is ordered that Indemnity Insurance Co. of North America must remit to Dr. James Mitchell \$298.41 plus applicable accrued interest within 30 days of receiving this order in accordance with 28 TAC §134.130.
