Findings and Decision

Authority

This medical fee dispute is decided according to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation (DWC).

Statutes and Rules

1. 28 Texas Administrative Code, (TAC), §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 TAC §134.203 sets out the fee guidelines for professional services.

Denial Reasons

The insurance carrier denied the payment for the disputed services with the following claim adjustment codes:

- 150-Payment adjusted/unsupported service level.
- Neither a MODERATE level of Medical Decision Making (MDM) or Time spent has been adequately documented in the patient record (2021 CPT). Please recode & resubmit or provide additional documentation.
- W3-Appeal/Reconsideration.

Issues

1. Is Protective Insurance Company's denial based on documentation does not support level of service billed supported?

Findings

1. The requestor is seeking medical fee dispute resolution in the amount of \$227.41 for CPT code 99214 rendered on July 9, 2021.

The respondent denied reimbursement for CPT code 99214 based upon documentation does not support level of service billed.

The fee guideline for CPT code 99214 is found at 28 TAC §134.203.

28 TAC §134.203(a)(5) states, "Medicare payment policies" when used in this section, shall mean reimbursement methodologies, models, and values or weights including its coding, billing, and reporting payment policies as set forth in the Centers for Medicare and Medicaid Services (CMS) payment policies specific to Medicare."

CPT code 99214 is described as, "Office or other outpatient visit for the evaluation and management of an established patient, which requires a medically appropriate history and/or examination and moderate level of medical decision making. When using time for code selection, 30-39 minutes of total time is spent on the date of the encounter."

The division finds the submitted report does not support billing code 99214, specifically moderate level medical decision making; therefore, reimbursement is not recommended

Conclusion

The outcome of this medical fee dispute is based on the evidence presented by the requestor and the respondent at the time of adjudication. Though all evidence may not have been discussed, it was considered.

DWC finds the requester has not established that reimbursement is due.

Order

Under Texas Labor Code §§413.031 and 413.019, DWC has determined the requestor is not entitled to reimbursement for the disputed services.
