Issues

1. Did the requestor waive the right to medical fee dispute resolution?

Findings

1. 28 Texas Administrative Code §133.307(c)(1) states:

Timeliness. A requestor shall timely file the request with the division's MFDR Section or waive the right to MFDR. The division shall deem a request to be filed on the date the MFDR Section receives the request. A decision by the MFDR Section that a request was not timely filed is not a dismissal and may be appealed pursuant to subsection (g) of this section.

(A) A request for MFDR that does not involve issues identified in subparagraph (B) of this paragraph shall be filed no later than one year after the date(s) of service in dispute.

The date of the services in dispute is September 11, 2020. The request for medical fee dispute resolution was received in the Medical Fee Dispute Resolution (MFDR) Section on February 15, 2022. Review of the submitted documentation finds that the disputed services involve issues identified in 28 TAC §133.307(c) (1) (B).

28 TAC §133.307 (c) (1) (B) states that a request for medical fee dispute resolution may be filed 60-days after a requestor has received an approved agreement or a final decision and order that resolves the compensability or extent-of-injury denial.

Per 28 TAC §102.5 states, "(d) For purposes of determining the date of receipt for written communications sent by the division, which require the recipient to perform an action by a specific date after receipt unless the great weight of evidence indicates otherwise, the division will deem the received date to be the earliest of: five days after the date mailed through United States Postal Service regular mail, the first working day after the date the written communication was placed in an insurance carrier's Austin representative's electronic box, or the date faxed or electronically transmitted as defined in subsection (h) of this section."

The Decision & Order was mailed by the DWC on December 2, 2021, 5 days for mail per rule 28 TAC §102.5, makes the received date by the provider as, Tuesday, December 7, 2021. The 60 days after the final decision is Monday, February 7, 2022. The DWC060 was received by the DWC on February 15, 2022. The dispute is therefore untimely and not eligible for review. The Division concludes that the requestor has failed to timely file this dispute with the Division's MFD Section; consequently, the requestor has waived the right to medical fee dispute resolution.

Conclusion

The outcome of this medical fee dispute is based on the evidence presented by the requestor and the respondent at the time of adjudication. Though all evidence may not have been discussed, it was considered.

DWC finds the requestor has not established that additional reimbursement is due.

Order

Under Texas Labor Code §§413.031 and 413.019, DWC has determined the requestor is not entitled to additional reimbursement for the disputed services.
