Requester's Position

"This claim was denied for the appeal, indicating that preauth was required and not obtained. The service was performed on 02/27/2021 for total charges of \$7450.00. We received an approval from Coventry on 02/23/2021. See attached letter. Request needs to be authorized for fee dispute. Payment is recommended along with interest."

Amount in Dispute: \$7,450.00

Respondent's Position

"This claim is in the Texas Star network and the rendered services require preauthorization per Rule 134.600. The provider did request preauthorization; however, the requested services were not certified. While the provider did obtain out-of-network approval from the Texas Star network, preauthorization is still required. The out-of-network approval letter, which was sent to the provider, includes a preauthorization reminder that states 'Out-of-network approval does not eliminate the requirement to obtain preauthorization for procedures.'... Our position is that no payment is due."

Findings and Decision

Authority

This medical fee dispute is decided according to Texas Labor Code (TLC) §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation (DWC).

Statutes and Rules

1. 28 Texas Administrative Code (TAC) §133.307 sets out the procedures for resolving medical fee disputes.
2. Texas Insurance Code (TIC) Chapter 1305 applies to health care certified networks.

Denial Reason(s)

- CAC-W3 & 350 - IN ACCORDANCE WITH TDI-DWC RULE 134.804. THIS BILL HAS BEEN IDENTIFIED AS A REQUEST FOR RECONSIDERATION OR APPEAL.
- CAC-193 - ORIGINAL PAYMENT DECISION IS BEING MAINTAINED. UPON REVIEW, IT WAS DETERMINED THAT THIS CLAIM WAS PROCESSED PROPERLY.
- CAC-197 - PRECERTIFICATION/AUTHORIZATION/NOTIFICATION ABSENT.
- DC4- NO ADDITIONAL REIMBURSEMENT ALLOWED AFTER RECONSIDERATION.
- 786 - DENIED FOR LACK OF PREAUTHORIZATION OR PREAUTHORIZATION DENIAL IN ACCORDANCE WITH THE NETWORK CONTRACT.

Issues

1. Did the requester obtain preauthorization from the certified network for the radiology services in dispute?
2. Is this dispute eligible for medical fee dispute resolution under 28 TAC §133.307?

Findings

1. The requestor filed this medical fee dispute to the Division asking for resolution pursuant to 28 TAC §133.307 titled *MDR of Fee Disputes*. The authority of the Division of Workers' Compensation to resolve matters involving employees enrolled in a certified health care network is limited to the conditions outlined in the applicable portions of the TIC, Chapter 1305 and limited application of TLC statutes and rules, including 28 TAC §133.307.

TIC §1305.106 states, "An insurance carrier that establishes or contracts with a network is liable for the following **out-of-network** health care that is provided to an injured employee... (3) health care provided by an out-of-network provider pursuant to a referral from the injured employee's treating doctor that has been approved by the network pursuant to Section [1305.103](#)."

TIC §1305.153 (c) states, "Out-of-network providers who provide care as described by Section 1305.006 shall be reimbursed as provided by the Texas Workers' Compensation Act and applicable rules of the commissioner of workers' compensation."

The Division finds that the requestor obtained an out-of-network referral, however, did not obtain preauthorization for the services rendered on February 27, 2021. As a result, the disputed services are not eligible for medical fee dispute resolution. The Division finds that adjudicating the disputed service would involve enforcing a law, regulation, or other provision for the disputed service(s), provided to an in-network injured employee. The Division finds the disputed services are not under the jurisdiction of the Division of Workers' Compensation and therefore, are not eligible for medical fee dispute resolution under 28 TAC §133.307.

The Division finds that the disputed services were rendered to an in-network injured employee. The TDI rules at 28 TAC §§10.120 through 10.122 address the submission of a complaint by a health care provider to the Health Care Network. The Division finds that the disputed services may be filed to the TDI Complaint Resolution Process if the health care provider or facility is dissatisfied with the outcome of the network complaint process. The complaint process outlined in TIC Subchapter I, §1305.401 - §1305.405 and may be the appropriate administrative remedy to address matters related to health care certified networks.

Conclusion

The outcome of this medical fee dispute is based on the evidence presented by the requestor and the respondent at the time of adjudication. Though all evidence may not have been discussed, it was considered. The Division finds that this dispute is not under the jurisdiction of the Division of Workers' Compensation and is therefore, not eligible for medical fee dispute resolution under 28 TAC §133.307.

Order

It is ordered that this dispute is not eligible for resolution under 28 TAC §133.307.
