Issues

1. What is the timely filing deadline applicable to the service in dispute?
2. Are the insurance carrier's denial reasons supported?
3. What rules apply to reimbursement of CPT Code 97750-GP?
4. Is the requestor entitled to reimbursement for the service in dispute?

Findings

1. The requestor seeks medical fee dispute resolution for CPT code 97750-GP (X 8) rendered on June 9, 2021 in the amount of \$377.44. The respondent denied the disputed CPT code for timely filing.

TLC §408.027(a) states, in pertinent part, that "Failure by the health care provider to timely submit a claim for payment constitutes a forfeiture of the provider's right to reimbursement for that claim for payment."

28 TAC §102.4(h) states that "Unless the great weight of evidence indicates otherwise, written communications shall be deemed to have been sent on: (1) the date received, if sent by fax, personal delivery, or electronic transmission or, (2) the date postmarked if sent by mail via United States Postal Service regular mail, or, if the postmark date is unavailable, the later of the signature date on the written communication or the date it was received minus five days. If the date received minus five days is a Sunday or legal holiday, the date deemed sent shall be the next previous day which is not a Sunday or legal holiday."

Review of the submitted information finds an EOB dated July 12, 2021. The DWC therefore finds that the insurance carrier's denial for timely filing is not supported. Therefore, service in dispute is reviewed pursuant to the applicable fee guidelines.

2. The insurance carrier denied the service in dispute with denial reduction code 119 (description indicated above).

28 TAC §134.203(a)(5) states, "'Medicare payment policies' when used in this section, shall mean reimbursement methodologies, models, and values or weights including its coding, billing, and reporting payment policies as set forth in the Centers for Medicare and Medicaid Services (CMS) payment policies specific to Medicare."

CPT code 97750 is described as, "Physical performance test or measurement (eg, musculoskeletal, functional capacity), with written report, each 15 minutes "

The requestor appended the "GP" modifier to both codes. The "GP" modifier is described as "Services delivered under an outpatient physical therapy plan of care."

Per CMS' Billing and Coding: Outpatient Physical and Occupational Therapy Services, Article ID A56566, effective October 1, 2020:

These tests and measurements are beyond the usual evaluation services performed. Examples of physical performance tests or measurements include isokinetic testing, Functional Capacity Evaluation (FCE) and Tinetti. This code may be used for the 6-minute walk test, with a computerized report of the patient's oxygen saturation levels with increasing stress levels, performed under a PT or OT plan of care on pulmonary rehabilitation patients.

The therapy evaluation and re-evaluation codes are for a comprehensive review of the patient including, but not limited to, history, systems review, current clinical findings, establishment of a therapy diagnosis, and estimation of the prognosis and determination and/or revision of further treatment. CPT 97750 is intended to focus on patient performance of a specific activity or group of activities (CPT Assistant, December 2003).

There must be written evidence documenting the problem requiring the test, the specific test performed, and a separate measurement report. This report may include torque curves and other graphic reports with interpretation.

97750 should not be used to bill for patient assessments/re-assessments such as ROM testing or manual muscle testing completed at the start of care (as this is typically part of the examination included in the initial evaluation) and/or as the patient progresses through the episode of treatment.

CPT code 97750 is not covered on the same day as CPT codes 97161-97168 (due to CCI edits).

Supportive Documentation Requirements (required at least every 10 visits) for 97750

- Problem requiring the test and the specific test performed
- Separate measurement report, including any graphic reports
- Application to functional activity
- How the test impacts the plan of care

The DWC finds that the requestor documented and billed a physical performance test and therefore the insurance carrier's denial reasons are not supported. Reimbursement is recommended.

3. 28 TAC §134.203(c)(1) states, "To determine the MAR for professional services, system participants shall apply the Medicare payment policies with minimal modifications. (1) For service categories of Evaluation & Management, General Medicine, Physical Medicine and Rehabilitation, Radiology, Pathology, Anesthesia, and Surgery when performed in an office setting, the established conversion factor to be applied is \$52.83..."

On the disputed dates of service, the requestor billed CPT code 97550-GP (X 8). The multiple procedure rule discounting applies to the disputed service.

Medicare Claims Processing Manual Chapter 5, 10.3.7-effective June 6, 2016, titled Multiple Procedure Payment Reductions for Outpatient Rehabilitation Services, states:

Full payment is made for the unit or procedure with the highest PE payment. For subsequent units and procedures with dates of service prior to April 1, 2013, furnished to the same patient on the same day, full payment is made for work and malpractice and 80 percent payment is made for the PE for services submitted on professional claims (any claim submitted using the ASC X12 837 professional claim format or the CMS-1500 paper claim form) and 75 percent payment is made for the PE for services submitted on institutional claims (ASC X12 837 institutional claim format or Form CMS-1450).

For subsequent units and procedures with dates of service on or after April 1, 2013, furnished to the same patient on the same day, full payment is made for work and malpractice and 50 percent payment is made for the PE for services submitted on either professional or institutional claims.

To determine which services will receive the MPPR, contractors shall rank services according to the applicable PE relative value units (RVU) and price the service with the highest PE RVU at 100% and apply the appropriate MPPR to the remaining services. When the highest PE RVU applies to more than one of the identified services, contractors shall additionally sort and rank these services according to highest total fee schedule amount, and price the service with the highest total fee schedule amount at 100% and apply the appropriate MPPR to the remaining services.

The MPPR Rate File that contains the payments for 2021 services is found at <https://www.cms.gov/Medicare/Billing/TherapyServices/index.html>.

- The date of service is June 9, 2021
- MPPR rates are published by carrier and locality.
- Review of Box 32 on the CMS-1500 finds that the services were rendered in zip code 75243; therefore, the Medicare locality is "Dallas, Texas."
- The Medicare participating amount for CPT code 97750 at this locality is \$35.06 for the first unit, and \$25.75 for subsequent units.
- The DWC conversion factor for 2021 is 61.17
- The Medicare conversion factor for 2021 is 34.8931.

To determine the MAR the following formula is used: (DWC Conversion Factor/Medicare Conversion Factor) X Medicare Payment = Maximum Allowable Reimbursement (MAR).

Using the above formula, the MAR is \$61.46 for the first unit, and \$45.14 x 7 units = \$315.98 for the subsequent units, for a total of \$377.44. The respondent paid \$0.00. The difference between the MAR and amount paid is \$377.44; this amount is recommended for reimbursement.

The DWC finds that the requestor is entitled to reimbursement in the amount of \$377.44

4. The DWC finds the requestor has established that reimbursement is due for CPT Code 97750-GP rendered on June 9, 2021. As a result, \$377.44 is recommended.

Conclusion

The outcome of this medical fee dispute is based on the evidence presented by the requestor and the respondent at the time of adjudication. Though all evidence may not have been discussed, it was considered.

The DWC finds the requester has established that reimbursement is in the amount of \$377.44 is due.

Order

Under Texas Labor Code §§413.031 and 413.019, DWC has determined the requestor is entitled to reimbursement for the disputed services. It is ordered that the Respondent must remit to the Requestor \$377.44 plus applicable accrued interest within 30 days of receiving this order in accordance with 28 TAC §134.130.
