Amount in Dispute: \$40,703.35

Respondent's Position

"It is our position that payment issued was correct and no additional reimbursement would be due."

Response Submitted by: Claims Administrative Services, Inc.

Findings and Decision

Authority

This medical fee dispute is decided according to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation (DWC).

Statutes and Rules

1. 28 TAC §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 TAC §134.402 sets out the fee guidelines for ASC services.

Denial Reasons

The insurance carrier reduced the payment for the disputed services with the following claim adjustment codes:

- 618 – The value of this procedure is packaged into the payment of other services performed on the same date of service.
- 305 – The implant is included in this billing and is reimbursed at the higher percentage calculation.
- P12 – Workers' compensation jurisdictional fee schedule adjustment.
- 790 – This charge was reimbursed in accordance to the Texas Medical Fee Guideline.
- 350 – Bill has been identified as a request for reconsideration or appeal.
- W3 – In accordance with TDI-DWC rule 134.804, this bill has been identified as a request for reconsideration or appeal.

Issues

1. Is Baylor Surgicare at Plano Parkway entitled to additional reimbursement?

Findings

1. The requestor is seeking medical fee dispute resolution in the amount of \$40,703.35 for ASC services rendered on November 29, 2021.

The respondent contends that additional reimbursement is not due because payment of \$35,483.46 was made per the fee guideline.

The fee guidelines for disputed services are found in 28 TAC §134.402.

A. Per Addendum AA, CPT codes 63685 is a device intensive procedure.

28 TAC §134.402(f)(2)(A)(i)(ii) states,

The reimbursement calculation used for establishing the MAR shall be the Medicare ASC reimbursement amount determined by applying the most recently adopted and effective Medicare Payment System Policies for Services Furnished in Ambulatory Surgical Centers and Outpatient

Prospective Payment System reimbursement formula and factors as published annually in the *Federal Register*. Reimbursement shall be based on the fully implemented payment amount as in ADDENDUM AA, ASC COVERED SURGICAL PROCEDURES FOR CY 2008, published in the November 27, 2007 publication of the *Federal Register*, or its successor. The following minimal modifications apply: (2) Reimbursement for device intensive procedures shall be: (A) the sum of: (i) the ASC device portion; and (ii) the ASC service portion multiplied by 235 percent.”

The following formula was used to calculate the MAR:

- Step 1 calculating the device portion of the procedure:

The national reimbursement is found in the Addendum B for National Hospital Outpatient Prospective Payment System (OPPS) code 63685 for CY 2021 = \$29,444.52.

The device dependent APC offset percentage for National Hospital OPPS found in Addendum P for code 63685 for CY 2021 is 82.22%.

Multiply these two = **\$24,209.28**.

- Step 2 calculating the service portion of the procedure:

Per Addendum AA, the Medicare ASC reimbursement rate for code 63685 for CY 2021 is \$23,894.02.

This number is divided by 2 = \$11,947.01.

This number multiplied by the City Wage Index for Plano, Texas of 0.9744 = \$11,641.17.

The sum of these two is the geographically adjusted Medicare ASC reimbursement = \$23,588.18.

The service portion is found by taking the geographically adjusted rate minus the device portion = -\$621.10.

Multiply the service portion by the DWC payment adjustment of 235% = **-\$1,459.59**.

- Step 3 calculating the MAR:

The MAR is determined by adding the sum of the reimbursement for the device portion and the service portion = **\$22,749.69**.

B. Per Addendum AA, CPT codes 63650 is a device intensive procedure.

The following formula was used to calculate the MAR:

- Step 1 calculating the device portion of the procedure:

The national reimbursement is found in the Addendum B for National Hospital Outpatient Prospective Payment System (OPPS) code 63650 for CY 2021 = \$6,160.68.

The device dependent APC offset percentage for National Hospital OPPS found in Addendum P for code 63650 for CY 2021 is 48.22%.

Multiply these two = **\$2,970.68.**

- Step 2 calculating the service portion of the procedure:

Per Addendum AA, the Medicare ASC reimbursement rate for code 63650 for CY 2021 is \$4,473.13.

This number is divided by 2 = \$2,236.57.

This number multiplied by the City Wage Index for Plano, Texas of 0.9744 = \$2,179.31.

The sum of these two is the geographically adjusted Medicare ASC reimbursement = \$4,415.88.

The service portion is found by taking the geographically adjusted rate minus the device portion = \$1,445.20.

Multiply the service portion by the DWC payment adjustment of 235% = **\$3,396.22.**

- Step 3 calculating the MAR:

The MAR is determined by adding the sum of the reimbursement for the device portion and the service portion = **\$6,366.90.**

Procedure code 63650 was billed with two units and is not subject to a multiple procedure discount. DWC finds the MAR for this procedure code is **\$12,733.80.**

DWC finds that procedure code 63685 is not subject to a multiple procedure discount.

Therefore, the MAR for the ASC services rendered on November 29, 2021, is **\$35,483.49.** The respondent paid \$35,483.46. No additional reimbursement is recommended.

Conclusion

The outcome of this medical fee dispute is based on the evidence presented by the requestor and the respondent at the time of adjudication. Though all evidence may not have been discussed, it was considered.

DWC finds the requester has not established that additional reimbursement is due.

Order

Under Texas Labor Code §§413.031 and 413.019, DWC has determined the requestor is not entitled to additional reimbursement for the disputed services.
