#### Issues

1. What rule is applicable to reimbursement?

### **Findings**

1. The requestor is seeking reimbursement of radiology services rendered in August 2021. The insurance carrier provided evidence of payment in the amount of \$18.49 via electronic funds transfer on March 10, 2022.

The applicable fee guideline is found in §134.203(c)(1) states in pertinent part, to determine the MAR for professional services, system participants shall apply the Medicare payment policies with minimal modifications. For service categories of Radiology when performed in an office setting, the established conversion factor to be applied is (current year) conversion factor. For Surgery when performed in a facility setting, the established conversion factor of the current year.

Review of the submitted medical bill found the place of service to be "22" or on campus outpatient hospital. The Physician Fee Schedule listed Code 71046 – 26 with an allowable of \$10.55. The formula for calculating the maximum allowable reimbursement is physician fee schedule allowable multiplied by DWC conversion factor/ CMS conversion factor = MAR or  $$10.55 \times 61.17/34.8931 = $18.49$ . The insurance carrier paid \$18.49. No additional payment is

recommended.
