Medical Fee Dispute Resolution Findings and Decision

General Information

Requestor Name
Grapevine Surgicare

Respondent Name
Indemnity Insurance Co of North America

MFDR Tracking Number
M4-22-1623-01

Carrier's Austin Representative
Box Number 15

DWC Date Received
April 1, 2022

Summary of Findings

Dates of Service	Disputed Services	Amount in Dispute	Amount Due
November 10, 2021	25607	$3,703.26	$0.00
	Total	$3,703.26	$0.00

Requestor's Position

"At this time we are requesting that this claim paid in accordance with the 2021 Texas Workers Compensation Fee Schedule and Guidelines for Ambulatory Surgical centers."

Amount in Dispute: $3,703.26

Respondent's Position

"The fee guideline allowance for this ASC procedure was paid originally on the bill. In conclusion, Requestor is not owed any additional reimbursement for the date of service in dispute as the procedure was correctly paid."

Response submitted by: Downs-Stanford, P.C.

Findings and Decision

Authority

This medical fee dispute is decided according to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation (DWC).

Statutes and Rules

1. 28 TAC §133.307 sets out the procedures for resolving medical fee disputes.

2. 28 TAC 134.402 sets out the fee guidelines for ambulatory surgical centers.

Denial Reasons

The insurance carrier reduced/denied the payment for the disputed services with the following claim adjustment codes:

- 192 – Non standard adjustment code from paper remittance
- P12 – Workers' compensation jurisdictional fee schedule adjustment
- 790 – This charge was reimbursed in accordance to the Texas Medical Fee Guideline
- 193 – Original payment decision is being maintained. Upon review, it was determine that his claim was processed properly

Issues

1. Is the insurance carriers' reduction supported?

2. What rule applies for determining reimbursement for the disputed services?

3. Is the requester entitled to additional reimbursement?

Findings

1. The requestor is seeking additional reimbursement of surgery rendered in an ambulatory surgical center in November 2021. The insurance carrier reduced the charge based on workers' compensation jurisdictional fee schedule. The calculation of the maximum allowable reimbursement (MAR) based on the fee schedule is shown below.

2. DWC Rule 28 TAC §134.402 (d) requires Texas workers' compensation system participants when coding, billing, reporting and reimbursement to apply Medicare payment policies in effect on the date of service.

   The Medicare payment policy applicable to the services in dispute is found at www.cms.gov, Claims processing Manual, Chapter 4, Section 10.1.2 specifically Ambulatory Surgical Center Services on ASC list. Beginning with the implementation of the 2008 revised payment system, the labor related adjustments to the ASC payment rates are based on the Core-Based

Statistical Area (CBSA) methodology. Payment rates for most services are geographically adjusted using the pre-reclassification wage index values that CMS uses to pay non-acute providers. The adjustment for geographic wage variation will be made based on a 50 percent labor related share.

DWC Rule 28 TAC §134.402 (f) states in pertinent part the reimbursement calculation used for establishing the MAR shall be the Medicare ASC reimbursement amount determined by applying the most recently adopted and effective Medicare Payment System Policies for Services Furnished in Ambulatory Surgical Centers and Outpatient Prospective Payment System reimbursement formula and factors as published annually in the Federal Register.

Reimbursement shall be based on the fully implemented payment amount published in the Federal Register. Reimbursement for device intensive procedures shall be the sum of the ASC device portion and the ASC service portion multiplied by 235 percent.

The following formula was used to calculate the MAR:

Procedure Code 25607 has a payment indicator of J8. This is a device intensive procedure paid at an adjusted rate. The following formula was used to calculate the MAR:

Step 1 calculating the **device portion** of the procedure:

- The national reimbursement is found in the CMS Addendum B Hospital Outpatient Prospective Payment System (OPPS). Code 25607 has a payment rate of $6,264.95 for the disputed date of service.
- The device dependent APC offset percentage found in Addendum P of CMS OPPS for disputed date of service is $43.78%.
- Multiply these two = $2,742.80.

Step 2 calculating the **service portion** of the procedure:

- Per Addendum AA, the Medicare ASC reimbursement rate for code 25607 for disputed date of service is $4,212.92.
- This number is divided by 2 = $2,106.46.
- This number multiplied by the CBSA for Grapevine, Texas of 0.9699 = $2,043.05.
- The sum of these two is the geographically adjusted Medicare ASC reimbursement =$4,149.51.
- The service portion is found by taking the geographically adjusted rate minus the device portion = $4,149.51 – $2,742.80 = $1,406.71.
- Multiply the service portion by the DWC payment adjustment of 235% = $3,305.77.

Step 3 calculating the MAR:

- The MAR is determined by adding the sum of the reimbursement for the device portion and the service portion = $3,305.77 + $2,742.80 = $6,048.57.

3. The DWC finds the MAR for CPT code 25607 is $6,048.57. The respondent paid $6,047.60. No additional payment is recommended.

<u>Conclusion</u>

The outcome of this medical fee dispute is based on the evidence presented by the requestor and the respondent at the time of adjudication. Though all evidence may not have been discussed, it was considered.

DWC finds the requester has not established that additional reimbursement is due.

Order

Under Texas Labor Code §§413.031 and 413.019, DWC has determined the requestor is not entitled to additional reimbursement for the disputed services.
