Findings and Decision

Authority

This medical fee dispute is decided according to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation (DWC).

Statutes and Rules

1. 28 TAC §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 TAC 134.402 sets out the fee guidelines for ambulatory surgical centers.

Denial Reasons

The insurance carrier reduced/denied the payment for the disputed services with the following claim adjustment codes:

- 193 – Original payment decision is being maintained. Upon review, it was determined that this claim was processed properly
- 618 – The value of this procedure is packaged into the payment of other service performed on the same date of service
- 790 – This charge was reimbursed in accordance to the Texas Medical Fee Guidelines
- P12 – Workers' compensation jurisdictional fee schedule adjustment

Issues

1. What rule applies for determining reimbursement for the disputed services?
2. Is the requester entitled to additional reimbursement?

Findings

1. The requestor is seeking additional reimbursement for a surgical procedure rendered in an ambulatory surgical center in November of 2021. DWC Rule 28 TAC §134.402 (d) requires Texas workers' compensation system participants when coding, billing, reporting and reimbursement to apply Medicare payment policies in effect on the date of service.

The Medicare payment policy applicable to the services in dispute is found at www.cms.gov, Claims processing Manual, Chapter 4, Section 10.1.2 specifically Ambulatory Surgical Center Services on ASC list. Beginning with the implementation of the 2008 revised payment system, the labor related adjustments to the ASC payment rates are based on the Core-Based Statistical Area (CBSA) methodology. Payment rates for most services are geographically adjusted using the pre-reclassification wage index values that CMS uses to pay non-acute providers. The adjustment for geographic wage variation will be made based on a 50 percent labor related share.

DWC Rule 28 TAC §134.402 (f) states in pertinent part the reimbursement calculation used for

establishing the MAR shall be the Medicare ASC reimbursement amount determined by applying the most recently adopted and effective Medicare Payment System Policies for Services Furnished in Ambulatory Surgical Centers and Outpatient Prospective Payment System reimbursement formula and factors as published annually in the Federal Register.

Reimbursement shall be based on the fully implemented payment amount published in the Federal Register. Reimbursement for device intensive procedures shall be the sum of the ASC device portion and the ASC service portion multiplied by 235 percent.

The following formula was used to calculate the MAR:

Procedure Code 29888 has a payment indicator of J8. This is a device intensive procedure paid at an adjusted rate. The following formula was used to calculate the MAR:

Step 1 calculating the **device portion** of the procedure:

- The national reimbursement is found in the Addendum B for CMS Hospital Outpatient Prospective Payment System (OPPS) code 29888 for applicable date of service is \$6,264.95.
- The device dependent APC offset percentage for CMS OPPS found in Addendum P for code 29888 for applicable date of service is 38.23%
- Multiply these two = $\$6,264.95 \times 38.23\% = \$2,395.09$

Step 2 calculating the **service portion** of the procedure:

- Per Addendum AA, the Medicare ASC reimbursement rate for code 29888 for applicable date of service is \$4,035.99
- This number is divided by 2 = $\$4,035.99 / 2 = \$2,017.99$,
- This number multiplied by the CBSA for Midland Texas of 0.8975 = $\$2,017.99 \times 0.8975 = \$1,811.15$.
- The sum of these two is the geographically adjusted Medicare ASC reimbursement = $\$2,017.99 + \$1,811.15 = \$3,829.14$.
- The service portion is found by taking the geographically adjusted rate minus the device portion = $\$3,829.14 - 2,395.09 = \$1,434.05$.
- Multiply the service portion by the DWC payment adjustment of 235% = $\$1,434.05 \times 235\% = \$3,370.01$.

Step 3 calculating the MAR:

- The MAR is determined by adding the sum of the reimbursement for the device portion and the service portion = $\$2,395.09 + \$3,370.01 = \$5,765.10$.

3. The DWC finds the MAR for CPT 29888 is \$5,765.10. The respondent paid \$5,764.27. No additional payment is recommended.

Conclusion

The outcome of this medical fee dispute is based on the evidence presented by the requestor and the respondent at the time of adjudication. Though all evidence may not have been discussed, it was considered.

DWC finds the requester has not established that additional reimbursement is due.

Order

Under Texas Labor Code §§413.031 and 413.019, DWC has determined the requestor is not entitled to additional reimbursement for the disputed services.
