Findings and Decision

Authority

This medical fee dispute is decided according to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation (DWC).

Statutes and Rules

1. 28 TAC §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 TAC §134.403 sets out the fee guidelines for outpatient hospital services.

Denial Reasons

The insurance carrier reduced or denied the payment for the disputed services with the following claim adjustment codes:

- P12 – Workers' compensation jurisdictional fee schedule adjustment.

Issues

1. What rule is applicable to reimbursement?
2. Is the requester entitled to additional reimbursement?

Findings

1. The requestor is seeking additional reimbursement for outpatient hospital services rendered in February 2022. The insurance carrier's reduced the services in dispute based on the workers' compensation fee schedule.

DWC Rule 28 TAC §134.403 (d) requires Texas workers' compensation system participants when coding, billing, reporting and reimbursement to apply Medicare payment policies in effect on the date of service.

The Medicare payment policy applicable to the services in dispute is found at www.cms.gov, Claims processing Manual, Chapter 4, Section 10.1.1. Specifically, Payment Status Indicators and Ambulatory Payment Category (APC).

DWC Rule 28 TAC 134.403 (e) states in pertinent part, regardless of billed amount, when no specific fee schedule or contract reimbursement shall be the maximum allowable reimbursement (MAR) amount under subsection (f) of this section including any applicable outlier payment amounts and reimbursement for implantables.

DWC Rule 28 TAC 134.403 (f) states in pertinent part the reimbursement calculation used for establishing the MAR shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Outpatient Prospective Payment System (OPPS) reimbursement formula and factors as published annually in the *Federal Register*.

The Medicare facility specific amount is calculated when the APC payment rate is multiplied by 60% to determine the labor portion. This amount is multiplied by the facility wage index for the date of service. The non-labor amount is determined when the APC payment rate is multiplied by 40%. The sum of the labor portion multiplied by the facility wage index and the non-labor portion determines the Medicare specific amount. Review of the submitted medical bill and the applicable fee guidelines referenced above is shown below.

- Procedure code 20680 has status indicator Q2 and is assigned APC 5073. The OPPS Addendum A rate is \$2,421.55 multiplied by 60% for an unadjusted labor amount of \$1,452.93, in turn multiplied by facility wage index 0.9552 for an adjusted labor amount of \$1,387.84.

The non-labor portion is 40% of the APC rate, or \$968.62.

The sum of the labor and non-labor portions is \$2,356.46.

The Medicare facility specific amount is \$2,356.46 multiplied by 200% for a MAR of \$4,712.92.

2. The total recommended reimbursement for the disputed services is \$4,712.92. The insurance carrier paid \$2,361.54. The amount due is \$2,351.38. This amount is recommended.

Conclusion

The outcome of this medical fee dispute is based on the evidence presented by the requestor and the respondent at the time of adjudication. Though all evidence may not have been discussed, it was considered.

DWC finds the requestor has established that additional reimbursement of \$2,351.38 is due.

Order

Under Texas Labor Code §§413.031 and 413.019, DWC has determined the requestor is entitled to additional reimbursement for the disputed services. It is ordered that respondent must remit to requestor \$2,351.38 plus applicable accrued interest within 30 days of receiving this order in accordance with 28 TAC §134.130.
