Findings and Decision

Authority

This medical fee dispute is decided according to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation (DWC).

Statutes and Rules

1. 28 TAC §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 TAC §134.225, effective July 7, 2016, sets the reimbursement guidelines for FCEs.

Denial Reasons

The insurance carrier reduced or denied the payment for the disputed services with the following claim adjustment codes:

- 29 – The time limit for filing claim has expired.
- 4721 – Per TX labor code sec. 308.027 providers must submit bills to payors within 95 days of the date of service.

Issues

1. Is the Insurance Carrier's pursuing the 95-day timely filing issue?
2. Does the multiple procedure payment (MPPR) reduction apply to CPT Code 97750-FC?
3. Is the Requestor entitled to reimbursement for CPT Code 97750-FC?

Findings

1. The requestor seeks reimbursement for CPT Code 97750-FC rendered on December 9, 2021. The insurance carrier denied/reduced the disputed service with denial reduction codes 29 and 4721, disputing timely filing.

The insurance carrier states in pertinent part, "Review (EOB), TAC RMP has properly reimbursed Dr. Henn in accordance with the Workers' Compensation Act and Division Fee Guidelines. Accordingly, TAC RMP requests the Division dismiss this medical dispute."

As a result, the DWC finds that the insurance carrier is no longer disputing the 95-day timely filing issue and therefore this issue will not be addressed in this review.

2. 28 TAC §134.203(b)(1) states, "For coding, billing, reporting, and reimbursement of professional medical services, Texas workers' compensation system participants shall apply the following: (1) Medicare payment policies, including its coding; billing; correct coding initiatives (CCI) edits; modifiers; bonus payments for health professional shortage areas (HPSAs) and physician scarcity areas (PSAs); and other payment policies in effect on the date a service is provided with any additions or exceptions in the rules."

CPT Code 97750-FC is defined as a functional capacity evaluation. The applicable fee guideline for FCEs is found at 28 TAC §134.225.

28 TAC §134.225 states, "The following applies to functional capacity evaluations (FCEs). A maximum of three FCEs for each compensable injury shall be billed and reimbursed. FCEs ordered by the division shall not count toward the three FCEs allowed for each compensable injury. FCEs shall be billed using CPT code 97750 with modifier "FC." FCEs shall be reimbursed in accordance with §134.203(c)(1) of this title. Reimbursement shall be for up to a maximum of

four hours for the initial test or for a division ordered test; a maximum of two hours for an interim test; and a maximum of three hours for the discharge test unless it is the initial test. Documentation is required. "

On the disputed dates of service, the requestor billed CPT code 97550-FC (x 14 units). The multiple procedure rule discounting applies to the disputed service.

Medicare Claims Processing Manual Chapter 5, 10.7-effective June 6, 2016, titled Multiple Procedure Payment Reductions for Outpatient Rehabilitation Services, states:

Full payment is made for the unit or procedure with the highest PE payment. For subsequent units and procedures with dates of service prior to April 1, 2013, furnished to the same patient on the same day, full payment is made for work and malpractice and 80 percent payment is made for the PE for services submitted on professional claims (any claim submitted using the ASC X12 837 professional claim format or the CMS-1500 paper claim form)....

For subsequent units and procedures with dates of service on or after April 1, 2013, furnished to the same patient on the same day, full payment is made for work and malpractice and 50 percent payment is made for the PE for services submitted on either professional or institutional claims.

To determine which services will receive the MPPR, contractors shall rank services according to the applicable PE relative value units (RVU) and price the service with the highest PE RVU at 100% and apply the appropriate MPPR to the remaining services. When the highest PE RVU applies to more than one of the identified services, contractors shall additionally sort and rank these services according to highest total fee schedule amount, and price the service with the highest total fee schedule amount at 100% and apply the appropriate MPPR to the remaining services.

The MPPR Rate File that contains the payments for 2021 services is found at <https://www.cms.gov/Medicare/Billing/TherapyServices/index.html>.

3. 28 TAC §134.203 states in pertinent part, "(c) To determine the MAR for professional services, system participants shall apply the Medicare payment policies with minimal modifications. (1) For service categories of Evaluation & Management, General Medicine, Physical Medicine and Rehabilitation, Radiology, Pathology, Anesthesia, and Surgery when performed in an office setting, the established conversion factor to be applied is \$52.83. For Surgery when performed in a facility setting, the established conversion factor to be applied is \$66.32. (2) The conversion factors listed in paragraph (1) of this subsection shall be the conversion factors for calendar year 2008. Subsequent year's conversion factors shall be determined by applying the annual percentage adjustment of the Medicare Economic Index (MEI) to the previous year's conversion factors, and shall be effective January 1st of the new calendar year..."

To determine the MAR the following formula is used: (DWC Conversion Factor/Medicare Conversion Factor) X Medicare Payment = Maximum Allowable Reimbursement (MAR).

- MPPR rates are published by carrier and locality.
- The disputed date of service is December 9, 2021.
- The 2021 DWC Conversion Factor is 61.17

- The 2021 Medicare Conversion Factor is 34.8931
- The Medicare participating amount for CPT code 97750 at this locality is \$33.44 for the first unit, and \$24.77 for subsequent units.
- Using the above formula, the DWC finds the MAR is \$58.62 for the first unit and \$43.42 x 13 units = \$564.51. The total MAR is \$623.13.
- The respondent paid \$623.08 after the MDR submission.
- Reimbursement of \$0.00 is recommended.

The DWC finds that the requestor has established that additional reimbursement is not due.

Conclusion

The outcome of this medical fee dispute is based on the evidence presented by the requestor and the respondent at the time of adjudication. Though all evidence may not have been discussed, it was considered.

The DWC finds the requester has not established that reimbursement is due.

Order

Under Texas Labor Code §§413.031 and 413.019, DWC has determined the requestor is not entitled to additional reimbursement for the disputed services.
