Issues

1. Is the Insurance Carrier's denial of compensability supported?
2. What is the description of CPT Codes 99213, 99080-73, 99361-W1, 97110-GP and 97112-GP?
3. Is the requestor entitled to reimbursement for CPT Code 99213?
4. Is the requestor entitled to reimbursement for CPT Code 99361-W1?
5. Is the requestor entitled to reimbursement for CPT Code 99080-73?
6. Does the Multiple Procedure Payment Reduction (MPPR) apply to CPT Codes 97110-GP and 97112-GP?
7. Is the Requestor entitled to reimbursement?

Findings

1. The requestor seeks reimbursement for CPT Codes 99213, 99080-73, 99361-W1, 97110-GP and 97112-GP rendered on April 26, 2022 through June 16, 2022. The insurance carrier denied the disputed service with the denial reduction codes P4, XDC, P3, XYC, and P13, description provided above.

   The services in dispute were denied by the workers' compensation carrier due to an unresolved compensability issue. 28 TAC §133.305(b) states that if a dispute over the compensability of a covered work injury exists for the same service for which there is a medical fee dispute, the dispute regarding the compensability shall be resolved prior to the submission of a medical fee dispute.

   Review of the documentation submitted, finds that the insurance carrier did not provide documentation to the DWC to support that it filed a Plain Language Notice (PLN) regarding the disputed conditions as required by 28 TAC §133.307(d)(2)(H). The respondent did not submit information to MFDR, to support that the PLN had ever been presented to the requestor or that the requestor had otherwise been informed of the PLN prior to the date that the request for medical fee dispute resolution was filed; therefore, the DWC finds that the compensability denial was not timely presented to the requestor in the manner required by 28 TAC §133.240.

   Because the services in dispute do not contain an unresolved compensability issue, this matter is eligible for review of a medical fee under 28 TAC §133.307. For that reason, this matter is addressed pursuant to the applicable rules and guidelines.

2. The requestor seeks reimbursement for CPT Codes 99213 and 99080-73, 99361-W1, 97110-GP and 97112-GP rendered on April 26, 2022 through June 16, 2022.

   28 TAC §134.203(b)(1) states, "For coding, billing, reporting, and reimbursement of professional medical services, Texas workers' compensation system participants shall apply the following: (1) Medicare payment policies, including its coding; billing; correct coding initiatives (CCI) edits; modifiers; bonus payments for health professional shortage areas (HPSAs) and physician scarcity areas (PSAs); and other payment policies in effect on the date a service is provided with any additions or exceptions in the rules."

   CPT Code 99213 is described as, "Office or other outpatient visit for the evaluation and management of an established patient, which requires a medically appropriate history and/or examination and low level of medical decision making. When using time for code selection, 20-29 minutes of total time is spent on the date of the encounter."

   CPT code 99080-73 is described as Work status report, DWC73 reporting form.

   CPT Code 99361-W1 is described as case management services.

   CPT code 97110 is described as, "Therapeutic procedure, 1 or more areas, each 15 minutes; therapeutic exercises to develop strength and endurance, range of motion and flexibility."

   CPT Code 97112 is described as, "Therapeutic procedure, 1 or more areas, each 15 minutes; neuromuscular reeducation of movement, balance, coordination, kinesthetic sense, posture, and/or proprioception for sitting and/or standing activities."

The DWC finds that the requestor rendered the services as billed, as a result, reimbursement is recommended for the disputed services.

3. The requestor seeks reimbursement for CPT Code 99213 rendered on April 26, 2022, and May 26, 2022.

   28 TAC §134.203 sets out the guidelines for office visits.

   28 TAC §134.203 states in pertinent part, "(c) To determine the MAR for professional services, system participants shall apply the Medicare payment policies with minimal modifications. (1) For service categories of Evaluation & Management, General Medicine, Physical Medicine and Rehabilitation, Radiology, Pathology, Anesthesia, and Surgery when performed in an office setting, the established conversion factor to be applied is $52.83. For Surgery when performed in a facility setting, the established conversion factor to be applied is $66.32. (2) The conversion factors listed in paragraph (1) of this subsection shall be the conversion factors for calendar year 2008. Subsequent year's conversion factors shall be determined by applying the annual percentage adjustment of the Medicare Economic Index (MEI) to the previous year's conversion factors, and shall be effective January 1st of the new calendar year..."

   To determine the MAR the following formula is used: (DWC Conversion Factor/Medicare Conversion Factor) X Medicare Payment = Maximum Allowable Reimbursement (MAR).

   - The 2022 DWC Conversion Factor is 62.46
   - The 2022 Medicare Conversion Factor is 34.6062
   - Per the medical bills, the services were rendered in zip code 75043; therefore, the Medicare locality is "Dallas."
   - The Medicare Participating amount for CPT code 99213 in this locality is $92.65.
   - Using the above formula, the DWC finds the MAR is $167.22.
   - The respondent paid $0.00.
   - Reimbursement of $167.22 is recommended.

4. The requestor seeks reimbursement for CPT Code 99361-W1 rendered on May 8, 2022 in the amount of $113.00.

   The DWC Rule 28 TAC §134.220 (1)(B)(2) states in pertinent part, "Team conferences and telephone calls should be triggered by a documented change in the condition of the injured employee and performed for the purpose of coordination of medical treatment and/or return to work for the injured employee."

   Review of the submitted document titled "Team Conference" does not indicate a change in the condition of the injured employee. As a result, the requestor is not entitled to reimbursement for this service.

5. The requestor seeks reimbursement for CPT Code 99080-73 rendered on April 26, 2022 and May 26, 2022.

   28 TAC §134.239 states, "When billing for a work status report that is not conducted as a part of the examinations outlined in §134.240 and §134.250 of this title, refer to §129.5 of this title."

28 TAC §129.5(i)(1) states "Notwithstanding any other provision of this title, a doctor may bill for, and a carrier shall reimburse, filing a complete Work Status Report required under this section or for providing a subsequent copy of a Work Status Report which was previously filed because the carrier, its agent, or the employer through its carrier, asks for an extra copy. The amount of reimbursement shall be $15. A doctor shall not bill in excess of $15 and shall not bill or be entitled to reimbursement for a Work Status Report which is not reimbursable under this section. Doctors are not required to submit a copy of the report being billed for with the bill if the report was previously provided. Doctors billing for Work Status Reports as permitted by this section shall do so as follows: (1) CPT code "99080" with modifier "73" shall be used when the doctor is billing for a report required under subsections (d)(1), (d)(2), and (f) of this section."

28 TAC §129.5 (d)(1) and (2) states "The doctor shall file the Work Status Report: (1) after the initial examination of the employee, regardless of the employee's work status; (2) when the employee experiences a change in work status or a substantial change in activity restrictions."

The DWC finds the requestor submitted sufficient documentation to support the billing of CPT Code 99080-73 rendered on April 26, 2022, the requestor is therefore entitled to $15.00 for date of service April 26, 2022.

The DWC finds the requestor submitted insufficient documentation to support the billing of CPT Code 99080-73 rendered on May 26, 2022, the requestor is therefore entitled to $0.00 for date of service May 26, 2022.

6. The requestor seeks reimbursement for CPT Codes 97110-GP x 4 and 97112-GP x 4 rendered on June 8, 2022 through June 16, 2022.

   28 TAC §134.203(a)(5) states, "'Medicare payment policies' when used in this section, shall mean reimbursement methodologies, models, and values or weights including its coding, billing, and reporting payment policies as set forth in the Centers for Medicare and Medicaid Services (CMS) payment policies specific to Medicare."

   Medicare Claims Processing Manual Chapter 5, 10.3.7-effective June 6, 2016, titled Multiple Procedure Payment Reductions (MPPR) for Outpatient Rehabilitation Services, states:

   > Full payment is made for the unit or procedure with the highest PE payment.
   > For subsequent units and procedures with dates of service prior to April 1, 2013, furnished to the same patient on the same day, full payment is made for work and malpractice and 80 percent payment is made for the PE for services submitted on professional claims (any claim submitted using the ASC X12 837 professional claim format or the CMS-1500 paper claim form) and 75 percent payment is made for the PE for services submitted on institutional claims (ASC X12 837 institutional claim format or Form CMS-1450).
   >
   > For subsequent units and procedures with dates of service on or after April 1, 2013, furnished to the same patient on the same day, full payment is made for work and malpractice and 50 percent payment is made for the PE for services submitted on either professional or institutional claims.

To determine which services will receive the MPPR, contractors shall rank services according to the applicable PE relative value units (RVU) and price the service with the highest PE RVU at 100% and apply the appropriate MPPR to the remaining services.

When the highest PE RVU applies to more than one of the identified services, contractors shall additionally sort and rank these services according to highest total fee schedule amount, and price the service with the highest total fee schedule amount at 100% and apply the appropriate MPPR to the remaining services.

Review of the Medicare policies finds that the multiple procedure payment reduction (MPPR) applies to the Practice Expense (PE) of certain time-based physical therapy codes when more than one unit or procedure is provided to the same patient on the same day. Medicare publishes a list of the codes subject to MPPR annually.

For 2022 the codes subject to MPPR are found in CMS 1693F the CY 2022 PFS Final Rule Multiple Procedure Payment Reduction Files. Review of that list finds that CPT Codes 97110 and 97112 are subject to the MPPR policy.

Review of the Medicare published list for 2022 finds that the PE RVU for CPT Code 97112 is 0.49 and the PE RVU for CPT Code 97110 is 0.40.

As shown above CPT Code 97112 has the highest PE RVU of 0.49, therefore, the reduced PE payment applies to the remaining units billed on the disputed dates in dispute.

28 TAC §134.203 states in pertinent part, "(c) To determine the MAR for professional services, system participants shall apply the Medicare payment policies with minimal modifications. (1) For service categories of Evaluation & Management, General Medicine, Physical Medicine and Rehabilitation, Radiology, Pathology, Anesthesia, and Surgery when performed in an office setting, the established conversion factor to be applied is $52.83. For Surgery when performed in a facility setting, the established conversion factor to be applied is $66.32. (2) The conversion factors listed in paragraph (1) of this subsection shall be the conversion factors for calendar year 2008. Subsequent year's conversion factors shall be determined by applying the annual percentage adjustment of the Medicare Economic Index (MEI) to the previous year's conversion factors, and shall be effective January 1st of the new calendar year…"

The MPPR Rate File that contains the payments for 2022 services is found at https://www.cms.gov/Medicare/Billing/TherapyServices/index.html.

The MPPR rates are published by carrier and locality.

CPT Codes	Medicare Fee Schedule (1st unit)	MPPR for subsequent units
97112	$35.48 x 1 unit	$26.78 x 1 unit
97110	----------	$ 23.41 x 6 units

To determine the MAR the following formula is used: (DWC Conversion Factor/Medicare Conversion Factor) X Medicare Payment = Maximum Allowable Reimbursement (MAR).

- The 2022 DWC Conversion Factor is 62.46
- The 2022 Medicare Conversion Factor is 34.6062
- Per the medical bills, the services were rendered in zip code 75043; the Medicare locality is "Dallas."

7. The DWC finds that the requestor is entitled to a total recommended amount of $1,645.70. This amount is recommended.

The DWC finds the requester has established that reimbursement of $1,645.70 is due.
