"However, the Requestor does not participate in the CorVel Texas Health Care Network (CorVel TXHCN). As such, the request for reconsideration was denied as out of network. This denial is reflected in pages 1-3 of the attached EORs. Although the injured worker referenced above is an in-network employee, the Requestor is not contracted with CorVel as a certified network provider. To date CorVel has no record of an out-of-network request from the network treating doctor or the Requestor (as required under Sec.1305.103 above) for approval by the CorVel Texas CorCare Network for out-of-network health care prior to services being rendered."

Issues

1. Are the disputed services out-of-network health care?
2. Under what conditions is the insurance carrier liable for out-of-network healthcare?
3. Is the insurance carrier liable for the disputed services?

Findings

1. The requestor, ST LUKES BAPTIST HOSPITAL, submitted a medical fee dispute to the division according to 28 TAC §133.307 and the dispute was docketed under M4-23-3008-01. The dispute concerns outpatient hospital services provided by the requestor on December 8, 2022. Per the submitted documentation and from information known to the division, the injured employee's claim is within the CorVel, TX healthcare certified network. The requestor is not within the CorVel network, as a result, the requestor provided out-of-network health care to the injured employee.

2. The requestor submitted the dispute requesting reimbursement for the disputed services as governed by the Texas Labor Code(TLC) legislation and rules, including 28 TAC §133.307. The requirements mentioned in the relevant sections of the TIC, Chapter 1305, are applicable to the DWC's ability to apply the TLC legislation and DWC rules for out-of-network health care. TIC §1305.153 (c) provides that "Out-of-network providers who provide care as described by §1305.006 shall be reimbursed as provided by the Texas Workers' Compensation Act and applicable rules of the commissioner of workers' compensation."

TIC §1305.006 titled *INSURANCE CARRIER LIABILITY FOR OUT-OF-NETWORK HEALTH CARE*, states, "An insurance carrier that establishes or contracts with a network is liable for the following out-of-network healthcare that is provided to an injured employee:

- (1) Emergency Care;
- (2) health care provided to an injured employee who does not live within the service area of any network established by the insurance carrier or with which the insurance carrier has a contract; and
- (3) health care provided by an out-of-network provider pursuant to a referral from the injured employee's treating doctor that has been approved by the network pursuant to §1305.103."

The requestor therefore has the burden to prove that the condition(s) outlined in the TIC §1305.006 were met for the insurance carrier to be liable for the disputed services. The requestor has submitted insufficient documentation to prove that any of the conditions outlined in TIC §1305.006 applied to the disputed services.

3. DWC concludes that the requestor failed to demonstrate that any of the conditions of TIC §1305.006 were met in this dispute, As a result, DWC finds that the insurance carrier is not liable for the out-of-network care in dispute.

Conclusion

The outcome of this medical fee dispute is based on the evidence presented by the requestor and the respondent at the time of adjudication. Though all evidence may not have been discussed, it was considered. The Division concludes that the insurance carrier is not liable for the disputed services.

Order

Based on the submitted information, pursuant to Texas Labor Code 413.031, the DWC hereby determines the requestor is entitled to \$0.00 reimbursement for the services in dispute.
