Issues

1. What rules apply to the reimbursement of the disputed service?
2. Is the Requestor entitled to additional reimbursement for CPT code 97750-FC?

Findings

1. The service in dispute involves CPT code 97750-FC, which is defined as a functional capacity evaluation (FCE). DWC finds that the following Rules apply to the reimbursement of 97750-FC:

The applicable reimbursement guideline for FCEs is found at 28 TAC §134.225, which states, "The following applies to functional capacity evaluations (FCEs). A maximum of three FCEs for each compensable injury shall be billed and reimbursed. FCEs ordered by the division shall not count toward the three FCEs allowed for each compensable injury. FCEs shall be billed using CPT code 97750 with modifier 'FC.' FCEs shall be reimbursed in accordance with §134.203(c) of this title. Reimbursement shall be for up to a maximum of four hours for the initial test or for a division ordered test; a maximum of two hours for an interim test; and a maximum of three hours for the discharge test unless it is the initial test. Documentation is required."

28 TAC §134.203(b)(1) which sets out fee guidelines for professional medical services, states, "For coding, billing, reporting, and reimbursement of professional medical services, Texas workers' compensation system participants shall apply the following: (1) Medicare payment policies, including its coding; billing; correct coding initiatives (CCI) edits; modifiers; bonus payments for health professional shortage areas (HPSAs) and physician scarcity areas (PSAs); and other payment policies in effect on the date a service is provided with any additions or exceptions in the rules."

Medicare Claims Processing Manual Chapter 5, 10.7-effective June 6, 2016, titled Multiple Procedure Payment Reductions (MPPR) for Outpatient Rehabilitation Services, states in pertinent part:

"Full payment is made for the unit or procedure with the highest PE payment....

For subsequent units and procedures with dates of service on or after April 1, 2013, furnished to the same patient on the same day, full payment is made for work and malpractice and 50 percent payment is made for the PE for services submitted on either professional or institutional claims.

To determine which services will receive the MPPR, contractors shall rank services according to the applicable PE relative value units (RVU) and price the service with the highest PE RVU at 100% and apply the appropriate MPPR to the remaining services. When the highest PE RVU applies to more than one of the identified services, contractors shall additionally sort and rank these services according to highest total fee schedule amount, and price the service with the highest total fee schedule amount at 100% and apply the appropriate MPPR to the remaining services."

The multiple procedure payment reduction discounting rule applies to the disputed service.

28 TAC §134.203, which applies to the reimbursement of the service in dispute, states in pertinent part, "(c) To determine the Maximum Allowable Reimbursement (MAR) for professional services, system participants shall apply the Medicare payment policies with minimal modifications. (1) For service categories of Evaluation & Management, General Medicine, Physical Medicine and Rehabilitation, Radiology, Pathology, Anesthesia, and Surgery when performed in an office setting, the established conversion factor to be applied is \$52.83. For Surgery when performed in a facility setting, the established conversion factor to be applied is \$66.32. (2) The conversion factors listed in paragraph (1) of this subsection shall be the conversion factors for calendar year 2008. Subsequent year's conversion factors shall be determined by applying the annual percentage adjustment of the Medicare Economic Index (MEI) to the previous year's conversion factors, and shall be effective January 1st of the new calendar year..."

2. The requestor is seeking additional reimbursement in the amount of \$247.77 for 16 units of CPT code 97750-FC rendered on December 20, 2022. Review of medical documentation submitted finds that the requestor documented and billed a four-hour (16 unit) FCE in accordance with 28 TAC §134.225 on the disputed date of service.

As described in Finding #1 above, the multiple procedure payment reduction (MPPR) discounting rule applies to the disputed service.

The MPPR Rate File that contains the payments for 2022 services is found at www.cms.gov/Medicare/Billing/TherapyServices/index.html.

To determine the MAR in accordance with 28 TAC §134.203, the following formula is used: (DWC Conversion Factor/Medicare Conversion Factor) X Medicare Payment = MAR.

- MPPR rates are published by carrier and locality.
- Disputed service was rendered in zip code 77042, locality 18, Houston.
- The disputed date of service is December 20, 2022.
- The Medicare participating amount for CPT code 97750 in 2022 at this locality is \$35.21 for the first unit, and \$25.95 for each subsequent 15 units.
- The 2022 DWC Conversion Factor is 62.46.
- The 2022 Medicare Conversion Factor is 34.6062.
- Using the above formula, the DWC finds the MAR is \$766.10.
- The respondent paid \$766.15.
- No additional reimbursement is recommended.

The division finds that the requestor is not entitled to additional reimbursement.

Conclusion

The outcome of this medical fee dispute is based on the evidence presented by the requestor and the respondent at the time of adjudication. Though all evidence may not have been discussed, it was considered.

The division finds the requestor has not established that additional reimbursement is due.

Order

Under Texas Labor Code §§413.031 and 413.019, the Division has determined the requestor is entitled to \$0.00 additional reimbursement for the disputed service.
