Findings and Decision

Authority

This medical fee dispute is decided according to [Texas Labor Code §413.031](#) and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation (DWC).

Statutes and Rules

1. [28 Texas Administrative Code \(TAC\) §133.307](#) sets out the procedures for resolving medical fee disputes.
2. [28 TAC §134.403](#) sets out the fee guidelines for outpatient hospital services.

Adjustment Reasons

The insurance carrier reduced the payment for the disputed services with the following claim adjustment codes:

- 370 – This hospital outpatient allowance was calculated according to the APC rate, plus a markup.
- 350 – Bill has been identified as a request for reconsideration or appeal.
- P12 – Workers' Compensation Jurisdictional fee schedule adjustment.

Issues

1. Did the insurance carrier reimburse the disputed service in accordance with the applicable DWC Rule 28 TAC §134.403?
2. Is the requester entitled to additional reimbursement?

Findings

1. The requester is seeking additional reimbursement in the amount of \$1,077.49 for outpatient facility charges rendered on June 6, 2023. Per the explanation of benefits submitted, the insurance carrier previously issued a payment in the amount of \$12,092.24 for the services in dispute.

DWC Rule 28 TAC §134.403 (d) requires Texas workers' compensation system participants when coding, billing, reporting and reimbursement to apply Medicare payment policies in effect on the date of service.

The Medicare payment policy applicable to the services in dispute is found at www.cms.gov, Claims processing Manual, Chapter 4, Section 10.1.1. Specifically, Payment Status Indicators and Ambulatory Payment Category (APC).

DWC Rule 28 TAC §134.403 (e) states in pertinent part, regardless of billed amount, when no specific fee schedule or contract exists, reimbursement shall be the maximum allowable

reimbursement (MAR) amount under subsection (f) of this section including any applicable outlier payment amounts and reimbursement for implantables.

DWC Rule 28 TAC §134.403 (f) states in pertinent part “the reimbursement calculation used for establishing the MAR shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Outpatient Prospective Payment System (OPPS) reimbursement formula and factors as published annually in the *Federal Register*. The following minimal modifications shall be applied. (1) The sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by:

(A) 200 percent; unless

(B) a facility or surgical implant provider requests separate reimbursement in accordance with subsection (g) of this section, in which case the facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 130 percent...”

According to a review of the submitted documentation, DWC finds that the requestor did not request separate reimbursement for surgical implants. Therefore, the MAR for the disputed service shall be the Medicare facility specific reimbursement amount multiplied by 200 percent.

DWC finds that the insurance carrier did not reimburse the disputed service in accordance with DWC Rule 28 TAC §134.403.

2. The requestor is seeking additional reimbursement in the amount of \$1,077.49 for outpatient surgical CPT code 29888 rendered on June 6, 2023.

The Medicare facility specific amount is calculated when the APC payment rate is multiplied by 60% to determine the labor portion. This amount is multiplied by the facility wage index for the date of service. The non-labor amount is determined when the APC payment rate is multiplied by 40%. The sum of the labor portion multiplied by the facility wage index and the non-labor portion determines the Medicare specific amount. Review of the submitted medical bill and the applicable fee guidelines referenced above is shown below.

- Procedure code 29888 has status indicator J1, for outpatient comprehensive packaging.
- This code is assigned APC 5114. The OPPS Addendum A rate is \$6,614.63 multiplied by 60% for an unadjusted labor amount of \$3,968.78, in turn multiplied by facility wage index 0.9925 for an adjusted labor amount of \$3,939.01.
- The non-labor portion is 40% of the APC rate, or \$2,645.85.
- The sum of the adjusted labor amount and the non-labor portion is \$6,584.86.
- Therefore, the Medicare facility specific amount is \$6,584.86. This amount is multiplied by 200% for a MAR of \$13,169.72.
- The total recommended reimbursement for the disputed services is \$13,169.72.
- The insurance carrier paid \$12,092.24.
- The amount due is \$1,077.48.
- DWC finds that the requestor is entitled to additional reimbursement in the amount of \$1,077.48.

Conclusion

The outcome of this medical fee dispute is based on the evidence presented by the requestor and the respondent at the time of adjudication. Though all evidence may not have been discussed, it was considered.

DWC finds that the requester has established that additional reimbursement in the amount of \$1,077.48 is due.

Order

Under Texas Labor Code §§413.031 and 413.019, DWC has determined the requestor is entitled to additional reimbursement for the disputed services. It is ordered that Brotherhood Mutual Insurance Co. must remit to Memorial Hermann Surgical \$1,077.48 plus applicable accrued interest within 30 days of receiving this order in accordance with 28 TAC §134.130.
