Findings and Decision

Authority

This medical fee dispute is decided according to [Texas Labor Code §413.031](#) and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation (DWC).

Statutes and Rules

1. 28 Texas Administrative Code ([TAC](#)) [§133.307](#) sets out the procedures for resolving medical fee disputes.
2. [28 TAC §134.203](#) sets out the fee guideline for professional medical services.
3. [28 TAC §134.225](#) sets the reimbursement guidelines for FCEs.

Adjustment Reasons

The insurance carrier reduced the payment for the disputed service with the following claim adjustment codes:

- 163 – The charge for this procedure exceeds the unit value and/or the multiple procedure rules.
- 309 – The charge for this procedure exceeds the fee schedule allowance.
- 193 - ORIGINAL PAYMENT DECISION IS BEING MAINTAINED. UPON REVIEW, IT WAS DETERMINED THAT THIS CLAIM WAS PROCESSED PROPERLY.

Issues

1. Have the disputed services received additional reimbursement after the request for medical fee dispute resolution (MFDR) was filed?
2. Is the Insurance Carrier's reimbursement reduction reason(s) supported?
3. Is the Requestor entitled to additional reimbursement for CPT code 97750-FC?

Findings

1. A review of the submitted explanation of benefits (EOB) documents finds that the insurance carrier initially allowed reimbursement for the disputed service in the amount of \$602.63, according to the EOB dated November 3, 2023. A later EOB, dated December 22, 2023, allowed an additional reimbursement in the amount of \$194.84, for a total reimbursement amount of \$797.47. DWC received this request for MFDR on December 13, 2023.

DWC finds that the service in dispute has received additional reimbursement after the request for this MFDR was filed.

2. The insurance carrier reduced the disputed service, 97750-FC, with reduction code 163 (description indicated above).

CPT Code 97750-FC is defined as a functional capacity evaluation.

On the disputed date of service, the requestor billed CPT code 97750-FC X 16 units.

Medicare Claims Processing Manual Chapter 5, 10.7-effective June 6, 2016, titled Multiple

Procedure Payment Reductions (MPPR) for Outpatient Rehabilitation Services, states in pertinent part:

Full payment is made for the unit or procedure with the highest PE payment....

For subsequent units and procedures with dates of service on or after April 1, 2013, furnished to the same patient on the same day, full payment is made for work and malpractice and 50 percent payment is made for the PE for services submitted on either professional or institutional claims.

To determine which services will receive the MPPR, contractors shall rank services according to the applicable PE relative value units (RVU) and price the service with the highest PE RVU at 100% and apply the appropriate MPPR to the remaining services. When the highest PE RVU applies to more than one of the identified services, contractors shall additionally sort and rank these services according to highest total fee schedule amount, and price the service with the highest total fee schedule amount at 100% and apply the appropriate MPPR to the remaining services.

The MPPR discounting rule applies to the disputed service.

DWC finds that the Insurance Carrier's reimbursement reduction reason is supported.

3. The requestor is seeking additional reimbursement in the amount of \$464.89 for 16 units of CPT code 97750-FC rendered on September 1, 2023.

The following Texas Administrative Code Rules apply to the reimbursement of 97750-FC:

28 TAC §134.203(b)(1) states, "For coding, billing, reporting, and reimbursement of professional medical services, Texas workers' compensation system participants shall apply the following: (1) Medicare payment policies, including its coding; billing; correct coding initiatives (CCI) edits; modifiers; bonus payments for health professional shortage areas (HPSAs) and physician scarcity areas (PSAs); and other payment policies in effect on the date a service is provided with any additions or exceptions in the rules."

The applicable fee guideline for FCEs is found at 28 TAC §134.225, which states, "The following applies to functional capacity evaluations (FCEs). A maximum of three FCEs for each compensable injury shall be billed and reimbursed. FCEs ordered by the division shall not count toward the three FCEs allowed for each compensable injury. FCEs shall be billed using CPT code 97750 with modifier "FC." FCEs shall be reimbursed in accordance with §134.203(c) of this title. Reimbursement shall be for up to a maximum of four hours for the initial test or for a division ordered test; a maximum of two hours for an interim test; and a maximum of three hours for the discharge test unless it is the initial test. Documentation is required. "

28 TAC §134.203 states in pertinent part, "(c) To determine the Maximum Allowable Reimbursement (MAR) for professional services, system participants shall apply the Medicare payment policies with minimal modifications. (1) For service categories of Evaluation & Management, General Medicine, Physical Medicine and Rehabilitation, Radiology, Pathology, Anesthesia, and Surgery when performed in an office setting, the established conversion factor to be applied is \$52.83. For Surgery when performed in a facility setting, the established conversion factor to be applied is \$66.32. (2) The conversion factors listed in paragraph (1) of this subsection shall be the conversion factors for calendar year 2008. Subsequent year's conversion factors shall be determined by applying the annual percentage adjustment of the

Medicare Economic Index (MEI) to the previous year's conversion factors, and shall be effective January 1st of the new calendar year..."

On the disputed date of service, the requestor billed CPT code 97750-FC X 16 units.

As described in Finding #1 above, the MPPR discounting rule applies to the disputed service.

The MPPR Rate File that contains the payments for 2023 services is found at www.cms.gov/Medicare/Billing/TherapyServices/index.html.

To determine the MAR the following formula is used:

$(\text{DWC Conversion Factor} / \text{Medicare Conversion Factor}) \times \text{Medicare Payment} = \text{MAR}$.

- MPPR rates are published by carrier and locality.
- Disputed service was rendered in zip code 77042, locality 18, Houston.
- The disputed date of service is September 1, 2023.
- The Medicare participating amount for CPT code 97750 in 2023 at this locality is \$34.93 for the first unit, and \$25.46 for each subsequent 15 units.
- The 2023 DWC Conversion Factor is 64.83
- The 2023 Medicare Conversion Factor is 33.8872
- Using the above formula, DWC finds the MAR is \$797.44.
- The insurance carrier paid a total amount of \$797.47 for the disputed service.
- No additional reimbursement is recommended.

DWC finds that no additional reimbursement is due.

Conclusion

The outcome of this medical fee dispute is based on the evidence presented by the requestor and the respondent at the time of adjudication. Though all evidence may not have been discussed, it was considered.

DWC finds the requestor has not established that additional reimbursement is due.

Order

Under Texas Labor Code §§413.031 and 413.019, DWC has determined the requestor is entitled to \$0.00 additional reimbursement for the disputed service.
