4. [28 TAC §134.225](#) sets the reimbursement guidelines for FCEs.

### Adjustment Reasons

The insurance carrier reduced the payment for the disputed services with the following claim adjustment codes:

- 600 - ALLOWANCE BASED ON THE MAXIMUM NUMBER OF UNITS ALLOWED ACCORDING TO THE FEE SCHEDULE AND/OR SERVICE CODE DESCRIPTION OR REGULATIONS.

### Issues

1. Is the insurance carrier's payment reduction reason supported?
2. Is the requestor entitled to additional reimbursement for 97750-FC rendered on January 11, 2023?

### Findings

1. The requestor billed \$888.02 for 14 units of a functional capacity evaluation (FCE) rendered on January 11, 2023, using CPT code 97750-FC. The insurance carrier initially issued a payment in the amount of \$576.13 and recommended an additional payment of \$93.20 upon reconsideration. The insurance carrier reimbursed a total amount of \$669.33 for the disputed service and reduced the remaining charges based on reason code 163, defined above.

28 TAC §134.225 states: "The following applies to functional capacity evaluations (FCEs) ... FCEs shall be billed using CPT code 97750 with modifier 'FC.' FCEs shall be reimbursed in accordance with §134.203(c)(1) of this title."

Per 28 TAC §134.203 (b)(1), parties are required to apply Medicare payment policies, including its coding, billing, correct coding initiatives (CCI) edits, modifiers, and other payment policies in effect on the date a service is provided with any additions or exceptions in the rules to workers' compensation coding, billing, reporting, and reimbursement of professional medical services.

28 TAC §§134.203 (a)(7) and 134.210 (a) states that specific provisions contained in the Texas Labor Code or division rules shall take precedence over any conflicting provision adopted or utilized by CMS in administering the Medicare program. However, no such conflict regarding billing or reimbursement was found that applies to a division-specific functional capacity evaluation. Therefore, Medicare reimbursement rules are applied to the examination in question.

Per [Medicare Claims Processing Manual \(cms.gov\)](#), Chapter 5, 10.7, effective February 6, 2019:

Medicare applies a multiple procedure payment reduction (MPPR) to the practice expense (PE) payment of select therapy services. The reduction applies to the HCPCS codes contained on the list of "always therapy" services ...

Many therapy services are time-based codes, i.e., multiple units may be billed for a single procedure ...

Full payment is made for the unit or procedure with the highest PE payment ... For subsequent units and procedures with dates of service on or after April 1, 2013, furnished to the same patient on the same day, full payment is made for work and malpractice and 50 percent payment is made for the PE for services submitted on either professional or institutional claims.

Procedure code 97750 is classified as an "always therapy" code in the Therapy Code List and Dispositions found in the [Annual Therapy Update | CMS](#). Therefore, the MPPR applies to the reimbursement of this code.

DWC finds that the insurance carrier's reimbursement reduction reason is supported.

2. On the disputed date of service, the requestor billed CPT code 97750-FC X 14 units and seeks additional reimbursement in the amount of \$218.69.

As described above, the MPPR rule applies to the disputed service.

The MPPR Rate File that contains the payments for 2023 services is found at [www.cms.gov/Medicare/Billing/TherapyServices/index.html](http://www.cms.gov/Medicare/Billing/TherapyServices/index.html).

To determine the maximum allowable reimbursement (MAR) the following formula is used: (DWC Conversion Factor/Medicare Conversion Factor) X Medicare Payment = MAR.

- MPPR rates are published by carrier and locality.
- The disputed date of service is January 11, 2023.
- The disputed service was rendered in zip code 78550, locality 99, "Rest of TX".
- The Medicare participating amount for CPT code 97750 at this locality in 2023 is \$33.21

for the first unit, and \$24.36 for subsequent units.

- The 2023 DWC Conversion Factor is 64.83
- The 2023 Medicare Conversion Factor is 33.8872
- Using the formula above, DWC finds the MAR for the first unit is \$63.53 and \$46.60 for each subsequent 13 units.
- Using the formula above, DWC finds that the MAR for 14 units of 97750-FC in locality 99 in 2023 = \$669.37.
- The respondent paid a total amount of \$669.33.
- No additional reimbursement is recommended.

DWC finds that no additional reimbursement is due.

### Conclusion

The outcome of this medical fee dispute is based on the evidence presented by the requestor and the respondent at the time of adjudication. Though all evidence may not have been discussed, it was considered.

DWC finds that the requestor has not established that additional reimbursement is due.

## **Order**

Under Texas Labor Code §§413.031 and 413.019, DWC has determined the requestor is entitled to \$0.00 additional reimbursement for the disputed service.
