

Under the provisions of Section 413.031 of the Texas Workers' Compensation Act, Title 5, Subtitle A of the Texas Labor Code, effective January 1, 2002 and Commission Rule 133.305 and 133.308 titled Medical Dispute Resolution by Independent Review Organizations, the Medical Review Division assigned an IRO to conduct a review of the disputed medical necessity issues between the requestor and the respondent.

The Medical Review Division has reviewed the IRO decision and determined that **the requestor prevailed** on the issues of medical necessity. Therefore, upon receipt of this Order and in accordance with §133.308(q)(9), the Commission hereby orders the respondent and non-prevailing party to **refund the requestor \$460.00** for the paid IRO fee.

In accordance with §413.031(e), it is a defense for the carrier if the carrier timely complies with the IRO decision.

Based on review of the disputed issues within the request, the Medical Review Division has determined that **medical necessity was the only issue** to be resolved. The reading and interpretation of lumbar x-rays was found to be medically necessary. The respondent raised no other reasons for denying reimbursement for the reading and interpretation of lumbar x-rays charges.

On this basis, and pursuant to §§402.042, 413.016, 413.031, and 413.019 of the Act, the Medical Review Division hereby ORDERS the respondent to pay the unpaid medical fees in accordance with the fair and reasonable rate as set forth in Commission Rule 133.1(a)(8) plus all accrued interest due at the time of payment to the requestor within 20 days of receipt of this order. This Order is applicable to date of service 9/16/01 in this dispute.

The respondent is prohibited from asserting additional denial reasons relative to this Decision upon issuing payment to the requestor in accordance with this Order (Rule 133.307(j)(2)).

This Order is hereby issued this 10th day of September 2002.

Carol R. Lawrence

4000 South IH-35, MS 48
Austin, TX 78704-7491

RE: MDR Tracking #: M5-02-2236-01
IRO Certificate #: 4326

___ has been certified by the Texas Department of Insurance (TDI) as an independent review organization (IRO). The Texas Workers' Compensation Commission (TWCC) has assigned the above referenced case to ___ for independent review in accordance with TWCC Rule §133.308 which allows for medical dispute resolution by an IRO.

___ has performed an independent review of the rendered care to determine if the adverse determination was appropriate. In performing this review, relevant medical records, any documents utilized by the parties referenced above in making the adverse determination, and any documentation and written information submitted in support of the appeal was reviewed.

The independent review was performed by a matched peer with the treating health care professional. This case was reviewed by a health care professional licensed in chiropractic care. ___ health care professional has signed a certification statement stating that no known conflicts of interest exist between him or her and any of the treating physicians or providers or any of the physicians or providers who reviewed the case for a determination prior to the referral to ___ for independent review. In addition, the reviewer has certified that the review was performed without bias for or against any party to this case.

Clinical History

This 60 year old male sustained a work related lifting injury to his lower back on ____. X-rays of the lumbar spine were performed on 09/06/01. On 09/16/01 the lumbar x-rays were interpreted by a board certified chiropractic radiologist with the impression of postural alterations, moderate spondylosis of L3-4 and moderate to marked loss of bone density. An MRI of the lumbar spine was performed on 09/24/01.

Requested Service(s)

Outside reading and interpretation of lumbar x-rays by a board certified chiropractic radiologist.

Decision

It is determined that the outside reading and interpretation of lumbar x-rays by a board certified chiropractic radiologist was medically necessary to treat this patient's condition.

Rationale/Basis for Decision

The outside radiology interpretation was conducted by a board-certified chiropractic radiologist. Due to clinical findings on the radiographs as noted, the outside interpretation was medically necessary in order to make a confirmed diagnosis and establish the source of the patient's continued pain.

Sincerely,
