

Under the provisions of Section 413.031 of the Texas Workers' Compensation Act, Title 5, Subtitle A of the Texas Labor Code, effective January 1, 2002 and Commission Rule 133.305 and 133.308 titled *Medical Dispute Resolution by Independent Review Organizations*, the Medical Review Division assigned an IRO to conduct a review of the disputed medical necessity issues between the requestor and the respondent.

The Medical Review Division has reviewed the IRO decision and determined that **the requestor prevailed** on the issues of medical necessity. The requestor is also the injured worker in this dispute. Therefore, in accordance with §133.308(q)(9), a refund will not to be reimbursed to the respondent.

In accordance with §413.031(e), it is a defense for the carrier if the carrier timely complies with the IRO decision.

Based on review of the disputed issues within the request, the Medical Review Division has determined that **medical necessity was the only issue** to be resolved. The disputed prescription medications were found to be medically necessary. The respondent raised no other reasons for denying reimbursement.

On this basis, and pursuant to §§402.042, 413.016, 413.031, and 413.019 of the Act, the Medical Review Division hereby ORDERS the respondent to pay the unpaid medical fees in accordance with the fair and reasonable rate as set forth in Commission Rule 133.1(a)(8) plus all accrued interest due at the time of payment to the requestor within 20 days of receipt of this order. This Order is applicable to dates of service 11/19/01 to 6/6/02.

The respondent is prohibited from asserting additional denial reasons relative to this Decision upon issuing payment to the requestor in accordance with this Order (Rule 133.307(j)(2)).

This Order is hereby issued this 3rd day of January 2003.

Noel L. Beavers  
Medical Dispute Resolution Officer  
Medical Review Division

**IRO Certificate #4599**

**NOTICE OF INDEPENDENT REVIEW DECISION**

December 18, 2002

**Re: IRO Case # M5-02-3065**

Texas Worker's Compensation Commission:

\_\_\_ has been certified as an independent review organization (IRO) and has been authorized to perform independent reviews of medical necessity for the Texas Worker's Compensation Commission (TWCC). Texas HB. 2600, Rule133.308 effective January 1, 2002, allows a claimant or provider who has received an adverse medical necessity determination from a carrier's internal process, to request an independent review by an IRO.

In accordance with the requirement that TWCC assign cases to certified IROs, TWCC assigned this case to \_\_\_ for an independent review. \_\_\_ has performed an independent review of the proposed care to determine if the adverse determination was appropriate. For that purpose, \_\_\_ received relevant medical records, any documents obtained from parties in making the adverse determination, and any other documents and/or written information submitted in support of the appeal.

The case was reviewed by a physician who is Board Certified in Neurological Surgery. He or she has signed a certification statement attesting that no known conflicts of interest exist between him or her and any of the treating physicians or providers, or any of the physicians or providers who reviewed the case for a determination prior to referral to \_\_\_ for independent review. In addition, the certification statement further attests that the review was performed without bias for or against the carrier, medical provider, or any other party to this case.

The determination of the \_\_\_ reviewer who reviewed this case, based on the medical records provided, is as follows:

History

The patient is a now 70-year-old male who was injured in \_\_\_ when he was kicked in the back. He developed back pain, which soon radiated into his right lower extremity. He had three lumbar spine surgeries, the last one on 1/28/95 when hardware, which had broken, had to be removed. The patient continues to have low back pain and lower extremity discomfort. A diagnosis of "post laminectomy syndrome" has been made.

Requested Service

Medications 11/19/01, 1/7/02, 1/8/02, 6/3/02, 6/6/02 --Thera-gesic Analgesis, Ultram 50MG, Ultracet

Decision

I disagree with the carrier's decision to deny the requested medication.

Rationale

The disputed office visits were indicated because the patient continued to require medications, which required follow up reevaluation. The patient had been referred to a pain specialist, but that was not helpful. Under those circumstances the appropriate person for follow up would be the treating surgeon.

This medical necessity decision by an Independent Review Organization is deemed to be a Commission decision and order.

**YOUR RIGHT TO REQUEST A HEARING**

Either party to this medical dispute may disagree with all or part of the decision and has a right to request a hearing. A request for a hearing must be in writing, and it must be received by the TWCC Chief Clerk of Proceedings within **20** (twenty) days of your receipt of this decision (28 Tex. Admin. Code 148.3). This decision is deemed received by you 5 (five) days after it was mailed (28 Tex. Admin. Code 102.4(h) or 102.5(d)). A request for a hearing should be sent to: Chief Clerk of Proceedings, Texas Worker's Compensation Commission, P O Box 40669, Austin, TX 78704-0012. A copy of this decision should be attached to the request.

The party appealing this decision shall deliver a copy of its written request for a hearing to all other parties involved in the dispute.

Sincerely,
