

Under the provisions of Section 413.031 of the Texas Workers' Compensation Act, Title 5, Subtitle A of the Texas Labor Code, effective January 1, 2002 and Commission Rule 133.305 and 133.308 titled *Medical Dispute Resolution by Independent Review Organizations*, the Medical Review Division assigned an IRO to conduct a review of the disputed medical necessity issues between the requestor and the respondent.

The Medical Review Division has reviewed the IRO decision and determined that **the requestor prevailed** on the issues of medical necessity. Therefore, upon receipt of this Order and in accordance with §133.308(q)(9), the Commission hereby orders the respondent and non-prevailing party to **refund the requestor \$650.00** for the paid IRO fee. For the purposes of determining compliance with the order, the Commission will add 20 days to the date the order was deemed received as outlined on page one of this order.

In accordance with §413.031(e), it is a defense for the carrier if the carrier timely complies with the IRO decision.

Based on review of the disputed issues within the request, the Medical Review Division has determined that **medical necessity was the only issue** to be resolved. The disputed water circulating pump, pad and cold therapy cooler wrap were found to be medically necessary. The respondent raised no other reasons for denying reimbursement.

On this basis, and pursuant to §§402.042, 413.016, 413.031, and 413.019 of the Act, the Medical Review Division hereby ORDERS the respondent to pay the unpaid medical fees in accordance with the fair and reasonable rate as set forth in Commission Rule 133.1(a)(8) plus all accrued interest due at the time of payment to the requestor within 20 days of receipt of this order. This Order is applicable to date of service 3/14/02.

The respondent is prohibited from asserting additional denial reasons relative to this Decision upon issuing payment to the requestor in accordance with this Order (Rule 133.307(j)(2)).

This Order is hereby issued this 3<sup>rd</sup> day of January 2003.

Noel L. Beavers  
Medical Dispute Resolution Officer  
Medical Review Division

## NOTICE OF INDEPENDENT REVIEW DECISION

**Date:** December 26, 2002

**Requester/ Respondent Address :** Rosalinda Lopez  
TWCC  
4000 South IH-35, MS-48  
Austin, Texas 78704-7491

**RE: MDR Tracking #:** M5-03-0471-01  
**IRO Certificate #:** 5242

\_\_\_ has been certified by the Texas Department of Insurance (TDI) as an independent review organization (IRO). The Texas Workers' Compensation Commission (TWCC) has assigned the above referenced case to \_\_\_ for independent review in accordance with TWCC Rule §133.308 which allows for medical dispute resolution by an IRO.

\_\_\_ has performed an independent review of the proposed care to determine if the adverse determination was appropriate. In performing this review, relevant medical records, any documents utilized by the parties referenced above in making the adverse determination, and any documentation and written information submitted in support of the appeal was reviewed.

The independent review was performed by an orthopedic surgeon physician reviewer who is board certified in orthopedic surgery. The orthopedic surgeon physician reviewer has signed a certification statement stating that no known conflicts of interest exist between him or her and any of the treating physicians or providers or any of the physicians or providers who reviewed the case for a determination prior to the referral to for independent review. In addition, the reviewer has certified that the review was performed without bias for or against any party to this case.

### **Clinical History**

The claimant is a 40 year old female who sustained an injury to her left knee on \_\_\_\_. She has undergone two arthroscopies since her injury, the latest on 3/14/02

### **Requested Service(s)**

Post-operative use of Cryowrap for analgesia

### **Decision**

I disagree with the insurance carrier and find Cryowrap to be medically necessary.

### **Rationale/Basis for Decision**

Although the specific mechanisms of cryotherapy in post operative analgesia are not entirely understood, there are controlled studies in the literature that indicate it is effective in post

arthroscopic analgesia. The most definitive review of this subject is in the Journal of Bone and Joint Surgery-American December 2000, Volume 82-A; 1754-66.

This decision by the IRO is deemed to be a TWCC decision and order.

In accordance with Commission Rule 102.4(h), I hereby verify that a copy of this Independent Review Organization (IRO) Decision was sent to the carrier, the requester and claimant via facsimile or U.S. Postal Service from the office of the IRO on this 27<sup>th</sup> day of December 2002.
