

**IRO Certificate #4599**

**NOTICE OF INDEPENDENT REVIEW DECISION**

September 24, 2002

**Re: IRO Case # M2-02-1025-01**

Texas Worker's Compensation Commission:

\_\_\_ has been certified as an independent review organization (IRO) and has been authorized to perform independent reviews of medical necessity for the Texas Worker's Compensation Commission (TWCC). Texas HB. 2600, Rule133.308 effective January 1, 2002, allows a claimant or provider who has received an adverse medical necessity determination from a carrier's internal process, to request an independent review by an IRO.

In accordance with the requirement that TWCC assign cases to certified IRO's, TWCC assigned this case to \_\_\_ for an independent review. \_\_\_ has performed an independent review of the proposed care to determine if the adverse determination was appropriate. For that purpose, \_\_\_ received relevant medical records, any documents obtained from parties in making the adverse determination, and any other documents and/or written information submitted in support of the appeal.

The case was reviewed by a physician who is Board Certified in Neurological Surgery. He or she has signed a certification statement attesting that no known conflicts of interest exist between him or her and any of the treating physicians or providers, or any of the physicians or providers who reviewed the case for a determination prior to referral to \_\_\_ for independent review. In addition, the certification statement further attests that the review was performed without bias for or against the carrier, medical provider, or any other party to this case.

The determination of the \_\_\_ reviewer who reviewed this case, based on the medical records provided, is as follows:

History

This case involves a now 40-year-old male who developed back pain on \_\_\_ secondary to an on-the-job injury. The pain extended into both lower extremities, and has been worse on the right side. An MRI 8/7/01 showed degenerative disk disease at multiple levels, but at L5-S1 there is significant bulging, greater to the right side. Physical therapy has been of some help to the patient, but he is still in significant discomfort.

Requested Service

Lumbar discogram with Post CT scan at L3-4, L4-5, L5-S1

Decision

I disagree with the carrier's decision to deny the requested procedure.

Rationale

The MRI suggests a particular level of difficulty, and frequently when multiple levels of discography are accomplished the concordant pain may well be produced in the suspected area. This could lead to a surgical procedure that is more appropriately directed at a particular level than it would have been without discography.

This medical necessity decision by an Independent Review Organization is deemed to be a Commission decision and order.

**YOUR RIGHT TO REQUEST A HEARING**

Either party to this medical dispute may disagree with all or part of the decision and has a right to request a hearing.

**If disputing a spinal surgery prospective decision**, a request for a hearing must be in writing, and it must be received by the TWCC Chief Clerk of Proceedings within **10** (ten) days of your receipt of this decision (28 Tex. Admin. Code 142.5(c)).

**If disputing other prospective medical necessity (preauthorization) decisions**, a request for a hearing must be in writing, and it must be received by the TWCC Chief Clerk of Proceedings within **20** (twenty) days of your receipt of this decision (28 Tex. Admin. Code 148.3).

This decision is deemed received by you 5 (five) days after it was mailed (28 Tex. Admin. Code 102.4(h) or 102.5(d)). A request for a hearing should be sent to:  
Chief Clerk of Proceedings, Texas Worker's Compensation Commission, P O Box 40669,  
Austin, TX 78704-0012. **A copy of this decision should be attached to the request.**

The party appealing this decision shall deliver a copy of its written request for a hearing to all other parties involved in the dispute (Commission Rule 133.308(t)(2)).

Sincerely,
