

NOTICE OF INDEPENDENT REVIEW DECISION

December 26, 2002

RE: MDR Tracking #: M2-03-0026-01
IRO Certificate #: IRO 4326

The ___ has been certified by the Texas Department of Insurance (TDI) as an independent review organization (IRO). The Texas Workers' Compensation Commission (TWCC) has assigned the above referenced case to ___ for independent review in accordance with TWCC Rule §133.308 which allows for medical dispute resolution by an IRO.

___ has performed an independent review of the proposed care to determine if the adverse determination was appropriate. In performing this review, relevant medical records, any documents utilized by the parties referenced above in making the adverse determination, and any documentation and written information submitted in support of the appeal was reviewed.

The independent review was performed by a ___ physician reviewer who is board certified in neurosurgery which is the same specialty as the treating physician. The ___ physician reviewer has signed a certification statement stating that no known conflicts of interest exist between him or her and any of the treating physicians or providers or any of the physicians or providers who reviewed the case for a determination prior to the referral to ___ for independent review. In addition, the reviewer has certified that the review was performed without bias for or against any party to this case.

Clinical History

This 36 year old male sustained a work related injury on ___ when he was pushing an object weighing 500 pounds and felt a pop in his lower back. An MRI performed on 12/20/01 revealed a minimal disc bulge with a small annular fissure at L4-5. The patient was treated with physical therapy and medications. A CT lumbar myelogram dated 05/21/02 revealed minimal facet arthropathy at L4-5 and L5-S1. On 06/14/02 the patient underwent an epidural steroid injection of the L5-S1. The treating neurosurgeon is recommending that the patient undergo a lumbar discogram.

Requested Service(s)

Lumbar discogram

Decision

It is determined that the lumbar discogram is medically necessary to treat this patient's condition.

Rationale/Basis for Decision

Lumbar discography is a reasonable diagnostic procedure for this patient. He has failed conservative treatment and surgical management may be indicated. The North American Spine Society Contemporary Concepts in Spine Care state that discography is indicated in "patients with persistent severe symptoms in whom other diagnostic tests have failed to reveal clear confirmation of a suspected disc as the source of pain". Therefore, it is determined that the lumbar discogram is medically necessary to treat this patient's condition.

This decision by the IRO is deemed to be a TWCC decision and order.
