Re: MDR #: M2-03-0754-01  
IRO Certificate No.: 5055

In accordance with the requirement for TWCC to randomly assign cases to IROs, TWCC assigned your case to \_\_\_ for an independent review. \_\_\_ has performed an independent review of the medical records to determine medical necessity. In performing this review, \_\_\_ reviewed relevant medical records, any documents provided by the parties referenced above, and any documentation and written information submitted in support of the dispute.

The independent review was performed by a matched peer with the treating health care provider. Your case was reviewed by a physician who is Board Certified in Anesthesia and Pain Management.

Clinical History:

This 52-year-old female claimant suffered a work-related injury on \_\_\_, resulting in a pop and lower back pain. She has undergone conservative therapy

Disputed Services:

IDET procedure.

Decision:

The reviewer agrees with the determination of the insurance carrier. The reviewer is of the opinion that the procedure in question is not medically necessary in this case.

Rationale for Decision:

Several notes within the records provided for review clearly document that this patient does not meet Saul and Saul criteria for IDET procedure. This seems to be of great importance in determining a successful outcome. The patient does not have a normal neurological exam, or a discogram that would meet the criteria of Saul and Saul. While IDET can be very successful when patients are chosen correctly, in this case it does not appear that this patient would be a good candidate for the IDET procedure.

I am the Secretary and General Counsel of \_\_\_ and I certify that the reviewing physician in this case has certified to our organization that there are no known conflicts of interest that exist between him and any of the treating physicians or other health care providers or any of the physicians or other health care providers who reviewed this care for determination prior to referral to the Independent Review Organization.

We are simultaneously forwarding copies of this report to the payor and the Texas Workers' Compensation Commission. This decision by \_\_\_ is deemed to be a Commission decision and order.
