CLINICAL HISTORY

___ is a 54-year-old woman with chronic low back pain, on and off again for several years, though recently worse. Her physician desires lumbar discography with CT to determine if she is a surgical candidate, and if so, at which levels.

REQUESTED SERVICE

A lumbar discogram with CT scan is requested for this patient.

DECISION

BASIS FOR THE DECISION

___ has performed an independent review solely to determine the medical necessity of the health services that are the subject of the review. ___ has made no determinations regarding benefits available under the injured employee's policy.

As an officer of ___, I certify that there is no known conflict between the reviewer, ___ and/or any officer/employee of the IRO with any person or entity that is a party to the dispute.

___ is forwarding by mail and, in the case of time sensitive matters by facsimile, a copy of this finding to the treating doctor, payor and/or URA, patient and the TWCC.
