## NOTICE OF INDEPENDENT REVIEW DECISION

**RE: MDR Tracking #: M2-03-1119-01**

\_\_\_ has been certified by the Texas Department of Insurance (TDI) as an independent review organization (IRO). \_\_\_' IRO Certificate Number is 5348. Texas Worker's Compensation Commission (TWCC) Rule §133.308 allows for a claimant or provider to request an independent review of a Carrier's adverse medical necessity determination. TWCC assigned the above-reference case to \_\_\_ for independent review in accordance with this Rule.

\_\_\_ has performed an independent review of the proposed care to determine whether or not the adverse determination was appropriate. Relevant medical records, documentation provided by the parties referenced above and other documentation and written information submitted regarding this appeal was reviewed during the performance of this independent review.

This case was reviewed by a practicing physician on the \_\_\_ external review panel. This physician is a board certified neurosurgeon. The \_\_\_ physician reviewer signed a statement certifying that no known conflicts of interest exist between this physician and any of the treating physicians or providers or any of the physicians or providers who reviewed this case for a determination prior to the referral to \_\_\_ for independent review. In addition, the \_\_\_ physician reviewer certified that the review was performed without bias for or against any party in this case.

### Clinical History

This case concerns a 39 year-old male who sustained a work related injury on \_\_\_. The patient reported that while at work he was lifting some heavy boxes when he heard a "pop" in his back. The patient has undergone an MRI and CT discogram and myelogram. The diagnoses for this patient include lumbar radiculopathy. The patient has been treated with oral pain medications, physical therapy and epidural steroid injections. The patient has also undergone a left L4-5 microdiscectomy on 11/12/02.

### Requested Services

Purchase of Interferential Muscle Stimulator.

### Decision

The Carrier's denial of authorization for the requested services is upheld.

### Rationale/Basis for Decision

The \_\_\_ physician reviewer noted that this case concerns a 39 year-old male who sustained a work related injury to his back on \_\_\_. The \_\_\_ physician reviewer also noted that the diagnoses for this patient included lumbar radiculopathy. The \_\_\_ physician reviewer indicated that this patient was treated with oral pain medication, physical therapy and epidural steroid injections. The \_\_\_ physician reviewer noted that the patient has undergone a left L4-5 microdiscectomy on 11/12/02. The \_\_\_ physician reviewer explained that the clinical benefit of the use of an interferential muscle stimulator for treatment of the member's condition has not

been proven. Therefore, the \_\_\_ physician consultant concluded that the requested purchase of Interferential Muscle Stimulator is not medically necessary to treat this patient's condition at this time.

This decision is deemed to be a TWCC Decision and Order.
