Date: June 24, 2003

RE: MDR Tracking #: M2-03-1205-01
IRO Certificate #: 5242

_____ has been certified by the Texas Department of Insurance (TDI) as an independent review organization (IRO). The Texas Workers' Compensation Commission (TWCC) has assigned the above referenced case to _____ for independent review in accordance with TWCC Rule §133.308 which allows for medical dispute resolution by an IRO.

_____ has performed an independent review of the proposed care to determine if the adverse determination was appropriate. In performing this review, relevant medical records, any documents utilized by the parties referenced above in making the adverse determination and any documentation and written information submitted in support of the appeal was reviewed.

The independent review was performed by an Orthopedic Surgeon physician reviewer who is board certified in Orthopedic Surgery. The Orthopedic Surgeon physician reviewer has signed a certification statement stating that no known conflicts of interest exist between him or her and any of the treating physicians or providers or any of the physicians or providers who reviewed the case for a determination prior to the referral to for independent review. In addition, the reviewer has certified that the review was performed without bias for or against any party to this case.

Clinical History

The claimant is a 53 year old male injured on the job on _____ when a ladder fell, complaints of lumbar pain radiating to thigh and pain and numbness in right hand. In spite of conservative treatment, the complaints persist. He has no neurologic deficits and has been diagnosed with lumbar sprain-strain that has now become chronic.

Requested Service(s)

RS4 sequential stimulator

Decision

I agree with insurer that above is not medically necessary.

Rationale/Basis for Decision

The permanent use of the above device for pain relief is not supported by medical evidence, it is specifically noted in National Guidelines that use of these devices should be temporary only and as an adjunct to programs to restore function i.e. exercise. They are not recommended for chronic conditions. This is referenced in Clinical Practice Guidelines for chronic non-malignant pain syndrome patients II: An evidence based approach.
