

## **NOTICE OF INDEPENDENT REVIEW DETERMINATION**

MDR Tracking Number: M2-03-1525-01  
IRO Certificate Number: 5259

August 11, 2003

An independent review of the above-referenced case has been completed by a medical physician board certified in physical medicine and rehabilitation. The appropriateness of setting and medical necessity of proposed or rendered services is determined by the application of medical screening criteria published by Texas Medical Foundation, or by the application of medical screening criteria and protocols formally established by practicing physicians. All available clinical information, the medical necessity guidelines and the special circumstances of said case was considered in making the determination.

The independent review determination and reasons for the determination, including the clinical basis for the determination, is as follows:

See Attached Physician Determination

\_\_\_\_ hereby certifies that the reviewing physician is on Texas Workers' Compensation Commission Approved Doctor List (ADL). Additionally, said physician has certified that no known conflicts of interest exist between him and any of the treating physicians or providers or any of the physicians or providers who reviewed the case for determination prior to referral to \_\_\_\_.

Sincerely,

### CLINICAL HISTORY

A 58-year old male injured \_\_\_\_ when a chair dropped on his right foot producing local contusion. Initial foot x-rays alternatively read as negative and possibly suggestive of fracture; however, MRI scan and CT scan of the foot and ankle were negative for fracture. MRI and CT scans did show diffuse mild inflammatory change. The patient has a past history significant for diabetes mellitus.

REQUESTED SERVICE(S)

Right foot tendon injection.

DECISION

Deny.

RATIONALE/BASIS FOR DECISION

There was no precise location for the injection specified. There is extremely little likelihood that a single injection would benefit diffuse tendon and soft tissue inflammation as documented on MRI and CT scan. Additionally, injecting cortisone into the foot of a diabetic is, in itself, a high risk procedure.

## YOUR RIGHT TO REQUEST A HEARING

Either party to this medical dispute may disagree with all or part of the decision and has a right to request a hearing.

**If disputing a spinal surgery prospective decision** a request for a hearing must be in writing, and it must be received by the TWCC Chief Clerk of Proceedings within **10** (ten) calendar days of your receipt of this decision (20 Tex. Admin. Code 142.5©).

**If disputing other prospective medical necessity (preauthorization) decisions** a request for a hearing must be in writing, and it must be received by the TWCC Chief Clerk of Proceedings within **20** (twenty) calendar days of your receipt of this decision (28 Tex. Admin. Code 148.3).

This decision is deemed received by you 5 (five) days after it was mailed or the date of fax (28 Tex. Admin. Code 102.4(h) or 102.5(d)). A request for a hearing and a **copy of this decision** must be sent to:

Chief Clerk of Proceedings/Appeals Clerk  
Texas Workers' Compensation Commission  
P.O. Box 17787  
Austin, Texas 78744

Or fax the request to (512) 804-4011. A copy of this decision must be attached to the request.

The party appealing the decision shall deliver a copy of its written request for a hearing to the opposing party involved in the dispute.

In accordance with Commission Rule 102.4(h), I hereby verify that a copy of this Independent Review Organization (IRO) Decision was sent to the carrier, the requestor and claimant via facsimile or U.S. Postal Service from the office of the IRO on this 14<sup>th</sup> day of August, 2003.
