Re: Medical Dispute Resolution
MDR #: M2-03-1760-01
IRO Certificate No.: 5055

In accordance with the requirement for TWCC to randomly assign cases to IROs, TWCC assigned your case to ___ for an independent review. ___ has performed an independent review of the medical records to determine medical necessity. In performing this review, ___ reviewed relevant medical records, any documents provided by the parties referenced above, and any documentation and written information submitted in support of the dispute.

The independent review was performed by a matched peer with the treating health care provider. Your case was reviewed by a physician who is Board Certified in Anesthesiology and Pain Management.

Clinical History:

This 33-year-old female patient suffered a work-related injury on ____. Over the course of treatment, she has had extensive physical therapy, injection procedures and oral pain medication.

Disputed Services:

Proposed purchase of Interferential Muscle Stimulator.

Decision:

The reviewer agrees with the determination of the insurance carrier. The proposed purchase of the Interferential Muscle Stimulator is not medically necessary.

Rationale:

There is nothing in the literature to support long term use of an interferential muscle stimulator. The usual time of use of this device is two to three months.

I am the Secretary and General Counsel of ___ and I certify that the reviewing physician in this case has certified to our organization that there are no known conflicts of interest that exist between him and any of the treating physicians or other health care providers or any of the physicians or other health care providers who reviewed this care for determination prior to referral to the Independent Review Organization.

We are simultaneously forwarding copies of this report to the payor and the Texas Workers' Compensation Commission. This decision by ___ is deemed to be a Commission decision and order.
