

NOTICE OF INDEPENDENT REVIEW DETERMINATION

MDR Tracking Number: M2-04-0013-01
IRO Certificate No.: 5259

November 8, 2003

An independent review of the above-referenced case has been completed by a medical physician board certified in family practice. The appropriateness of setting and medical necessity of proposed or rendered services is determined by the application of medical screening criteria published by ____, or by the application of medical screening criteria and protocols formally established by practicing physicians. All available clinical information, the medical necessity guidelines and the special circumstances of said case was considered in making the determination.

The independent review determination and reasons for the determination, including the clinical basis for the determination, is as follows:

See Attached Physician Determination

___ hereby certifies that the reviewing physician is on Texas Workers' Compensation Commission Approved Doctor List (ADL). Additionally, said physician has certified that no known conflicts of interest exist between him and any of the treating physicians or providers or any of the physicians or providers who reviewed the case for determination prior to referral to ___.

CLINICAL HISTORY

Patient had a work-related shoulder injury on ____. Apparently, she had physical therapy, medications, and muscle stimulator. A request to purchase a muscle stimulator was denied.

REQUESTED SERVICE(S)

Purchase of an interferential muscle stimulator.

DECISION

Uphold prior denial.

RATIONALE/BASIS FOR DECISION

Insufficient clinical information was submitted to substantiate the medical necessity of this device for indefinite use. No physical therapy records, no muscle stimulator usage log, and no pharmacy records were submitted for review to support the effectiveness of the muscle stimulator. Likewise, no mention of the patient's work status and limited clinical notes were enclosed. Due to the paucity

of the above information to support the medical necessity of this device, the previous denial is upheld.
