___ has been certified by the Texas Department of Insurance as an Independent Review Organization. The Texas Worker's Compensation Commission has assigned this case to ___ for independent review in accordance with TWCC Rule 133.308 which allows for medical dispute resolution by an IRO.

___ has performed an independent review of the proposed care to determine if the adverse determination was appropriate. In performing this review, all relevant medical records and documentation utilized to make the adverse determination, along with any documentation and written information submitted, was reviewed.

The independent review was performed by a matched peer with the treating doctor. This case was reviewed by a licensed Medical Doctor with a specialty and board certification in Orthopaedic Surgery. The reviewer is on the TWCC Approved Doctor List (ADL). The ___ health care professional has signed a certification statement stating that no known conflicts of interest exist between the reviewer and any of the treating doctors or providers or any of the doctors or providers who reviewed the case for a determination prior to the referral to ___ for independent review. In addition, the reviewer has certified that the review was performed without bias for or against any party to the dispute.

CLINICAL HISTORY

___ is a 43-year-old woman who has a history of chronic pain in the lumbar area with no documented radicular pain. This is due to an injury that occurred over four years ago. The details of her condition are not included in the medical records provided for review.

She has been using a RS-4i sequential stimulator which is a four-channel combination interferential and muscle stimulator unit. The patient reports that it has helped her pain and the treating physician has requested that the carrier purchase one of these units for her.

REQUESTED SERVICE

The purchase of an RS-4i interferential/muscle stimulator is requested for this patient.

DECISION

The reviewer agrees with the prior adverse determination.

BASIS FOR THE DECISION

There is no clear scientific documentation that this unit has any healing affect on a back injury that occurred four years ago. The medical literature on treatment of back injuries does not establish this unit as necessary for treatment of back problems, and there is no objective evidence

submitted with these records that proves there is any benefit from this unit. Therefore, the reviewer agrees with the carrier's decision to deny the purchase of this unit.

___ has performed an independent review solely to determine the medical necessity of the health services that are the subject of the review. ___ has made no determinations regarding benefits available under the injured employee's policy.

As an officer of ___, I certify that there is no known conflict between the reviewer, ___ and/or any officer/employee of the IRO with any person or entity that is a party to the dispute.

___ is forwarding by mail and, in the case of time sensitive matters by facsimile, a copy of this finding to the treating doctor, payor and/or URA, patient and the TWCC.

Sincerely,
