

IRO Certificate #4599

NOTICE OF INDEPENDENT REVIEW DECISION

October 22, 2003

Re: IRO Case # M2-04-0042-01

Texas Worker's Compensation Commission:

___ has been certified as an independent review organization (IRO) and has been authorized to perform independent reviews of medical necessity for the Texas Worker's Compensation Commission (TWCC). Texas HB. 2600, Rule133.308 effective January 1, 2002, allows a claimant or provider who has received an adverse medical necessity determination from a carrier's internal process, to request an independent review by an IRO.

In accordance with the requirement that TWCC assign cases to certified IROs, TWCC assigned this case to ___ for an independent review. ___ has performed an independent review of the proposed care to determine if the adverse determination was appropriate. For that purpose, ___ received relevant medical records, any documents obtained from parties in making the adverse determination, and any other documents and/or written information submitted in support of the appeal.

The case was reviewed by a physician who is Board Certified in Anesthesiology and Pain Management, and who has met the requirements for the TWCC Approved Doctor List or who has been granted an exception from the ADL. He or she has signed a certification statement attesting that no known conflicts of interest exist between him or her and any of the treating physicians or providers, or any of the physicians or providers who reviewed the case for a determination prior to referral to ___ for independent review. In addition, the certification statement further attests that the review was performed without bias for or against the carrier, medical provider, or any other party to this case.

The determination of the ___ reviewer who reviewed this case, based on the medical records provided, is as follows:

History

The patient has had low back pain since a ___ injury. The documentation provided for this review provides vague indication that use of the RS4 stimulator is of benefit.

Requested Service(s)

Purchase RS4i sequential stimulator

Decision

I agree with the carrier's decision to deny the requested treatment.

Rationale

The documentation provided for this review is not adequate to show the medical necessity of purchasing the RS4. The records provided do not document specific improvement in functional status and decrease in medication use.

This medical necessity decision by an Independent Review Organization is deemed to be a Commission decision and order.
