

NOTICE OF INDEPENDENT REVIEW DETERMINATION

MDR Tracking Number: M2-04-0091-01

September 30, 2003

An independent review of the above-referenced case has been completed by a chiropractic doctor. The appropriateness of setting and medical necessity of proposed or rendered services is determined by the application of medical screening criteria published by ____, or by the application of medical screening criteria and protocols formally established by practicing physicians. All available clinical information, the medical necessity guidelines and the special circumstances of said case was considered in making the determination.

The independent review determination and reasons for the determination, including the clinical basis for the determination, is as follows:

See Attached Physician Determination

___ hereby certifies that the reviewing physician is on Texas Workers' Compensation Commission Approved Doctor List (ADL). Additionally, said physician has certified that no known conflicts of interest exist between him and any of the treating physicians or providers or any of the physicians or providers who reviewed the case for determination prior to referral to ___.

Notice of Independent Review Determination

CLINICAL HISTORY

Patient suffering from CTS chronic pain after ___ on-the-job injury, extensive physical medicine treatments, injections and surgery.

REQUESTED SERVICE(S)

Prospective medical necessity for ten biofeedback sessions.

DECISION

Approve.

RATIONALE/BASIS FOR DECISION

Although the previous reviewer opined that 'no causal relationship exists' between carpal tunnel syndrome and biofeedback treatment, that is far from the issue at hand. The issue is whether or not biofeedback might help alleviate the patient's chronic pain symptoms. In this case, the examination and treatment records of the physician adequately document the medical necessity for the proposed ten biofeedback sessions.
