Re: MDR #: M2-04-0207-01-SS  
IRO Certificate No.: 5055

In accordance with the requirement for TWCC to randomly assign cases to IROs, TWCC assigned your case to \_\_\_ for an independent review. \_\_\_ has performed an independent review of the medical records to determine medical necessity. In performing this review, \_\_\_ reviewed relevant medical records, any documents provided by the parties referenced above, and any documentation and written information submitted in support of the dispute.

The independent review was performed by a matched peer with the treating health care provider. Your case was reviewed by a physician who is Board Certified in Orthopedic Surgery.

**Clinical History:**

This 31-year-old male sustained an injury on \_\_\_ when he fell, landing on his back. He subsequently had laminectomy and discectomy, and has continued to have problems and take medications. There is a note in the medical records that he is taking significant narcotics.

**Disputed Services:**

Proposed posterior lateral interbody fusion at L4-5.

**Decision:**

The reviewer agrees with the determination of the insurance carrier. A lateral interbody fusion at L4-5 is not medically necessary in this case.

**Rationale:**

In neither the history and objective findings nor the lab tests does the reviewer find any evidence for instability. Fusion is for instability, and it is not seen here. In fact, there is a very mildly positive MRI.

I am the Secretary and General Counsel of \_\_\_ and I certify that the reviewing physician in this case has certified to our organization that there are no known conflicts of interest that exist between him and any of the treating physicians or other health care providers or any of the physicians or other health care providers who reviewed this care for determination prior to referral to the Independent Review Organization.

We are simultaneously forwarding copies of this report to the payor and the Texas Workers' Compensation Commission. This decision by \_\_\_ is deemed to be a Commission decision and order.
